Welcome to Silver Creek High School's 2015-2016 school year. New students, you are about to experience learning and growing in a safe and exciting academic and social environment. Returning students, you have a key role to play in welcoming those who are new to the school. You also have the opportunity to experience a new curriculum, based on Common Core State Standards, that emphasizes understanding how to solve math problems over rote memorization and other subjects that will engage and encourage you to become independent, thinking citizens of a new connected and rapidly changing world.

Silver Creek High School (SCHS) cherishes the dedication of its parent/guardian volunteers and all adult encouragement of students' academic, social and extracurricular activities. Their continued support of the students, staff and programs is what separates SCHS from all other schools.

- The Associated Student Body works tirelessly to establish school pride and spirit through friendly class rivalries that showcase the many talents of the Silver Creek community.
- The 21st Century Grant allows for a wide array of after hours enrichment activities that include, but are not limited to, musical performances, film and technology, multicultural celebrations, fitness classes, open gym hours, and a monthly Movie Night where the community can come together to spend time with family and to win prizes through various fun activities such as raffles.
- Our PTSA allows parent access to school tools that help parents understand the many facets of the Silver Creek community, as well as invite them to be a part of the planning process for their child's wellbeing and success in high school.

Preparing every student to thrive in a global society.

Key Programs and Magnets

Business: SCHS has an award-winning magnet program in business. Students have won national awards that led to a meeting with President Obama. While at Silver Creek, students take four years of business courses and end their studies with a business plan of their own original, innovative thinking.

Forensic Science: This innovative magnet program allows students to participate in crime scene investigation scenarios using their in-depth knowledge and skills acquired from the program. A student's course of study may include classes in Biotechnology, Forensic Science, Computer Information Technology, and Law & Society.

Linked Learning: The goal of this program is to link learning across courses and to increase academic success. Students engage in collaborative learning in History, Mathematics, Science, Business, and English through computer science information and communication technologies.

AP Courses: Silver Creek High School offers an extensive selection of Advanced Placement courses. Students wishing to excel in their academics can choose from a wide range of AP courses including those such as Human Geography, Psychology, Studio Arts, and our highly successful Calculus class.
