8.01 Adoption of East Side Union High School District’s Mission, Vision and Goals Statement

Motion to adopt the District’s Vision, Mission and Goals as detailed in pages two and three of the Board and Cabinet Retreat Results (Attachment A) made by Member Biehl, second by Clerk Shirakawa. Vote: 4/0 Vice President Garcia absent from vote.

8.02 Recommendation and Proposals from the Academic Achievement Gap Subcommittee

Vice President Garcia clarified that the recommendation is from an individual Board Member. He thanked Member Herrera for his leadership in helping to create the subcommittee with him.

Motion approve the Recommendation and Proposals, which includes the amendment to item #3 to read as follows, “Approve the establishment of the Student Equity and Achievement Department within the division of Instructional Services and Human Relations; direct the Superintendent to identify and secure non-general fund funding sources to initially fund the Student Equity and Achievement Department; and authorize the creation of a Director of Student Equity and Achievement position to develop and implement a program designed to improve the student achievement gap.” made by Vice President Garcia, second by Clerk Shirakawa. Vote: 5/0

8.03 Approve Appointment of Measure E Citizens Bond Oversight Committee Team

The District is soliciting through various newspapers candidates to serve on the Measure E Committee. Member Biehl requested that the solicitation of members be expanded to include posting at East Side’s school sites.
Motion to approve the appointment of Rowena Smith and Jon Reinke to the Measure E Citizens Bond Oversight Committee made by Member Biehl, second by Member Herrera.
Vote: 4/0 Vice President Garcia absent from vote.

8.07 Approve Job Description and Salary for Contracts Administration Coordinator

Motion to approve the Job Description and Salary for Contracts Administration Coordinator made by Member Biehl, second by Member Herrera.
Vote: 4/0 Vice President Garcia absent from vote

8.08 Update on Asset Utilization and Reuse Plan

Presentation made by The Staubach Company, Inc.

Clerk Shirakawa thanked The Staubach Company for their desire to work with East Side. The District is trying to set the tone for the next 50 years and making sure to put all the parts into place for the needs of the District.

Member Shirakawa found the report to be very illuminating. The strength in the report gave him a lot of confidence and he appreciates the work. Overall we are moving in the right direction.

Member Biehl echoed the same comments and he likes Mr. Shirakawa’s enthusiasm. He likes the report and where we are going. He likes the timelines. He asked if administration would be able to come back to the Board in August with recommendations as to dealing with the first star on the Board.

Superintendent indicated that administration would be able come in August or by the June 26 Board meeting. Administration is waiting to see the response by the Board and to see if there are any changes to be made.
Administration would bring back information listed on the chart, such as looking for a partner for the exchange process, the authorization to do that. That would be the first part that would be brought back.

Counsel Ruiz indicated that it is the solicitation package to go to market and search for the exchange partner.

Member Biehl asked if the current Staubach contract would take care of their compensation.

Counsel Ruiz said, "Yes, there is a four-step contract. The first three steps are now completed as part of this report. The last step were the brokerage services in connection with the sale/exchange as part of the asset utilization plan.

Member Biehl indicated that he is willing to entertain this as long as happens by June 26 or the August meeting.

President Nguyen is very excited about the project. We are embarking on a long and exciting journey. What is decided will have long-term effect in the next 30 years. We need to be cautious every step because what we do is a long-term effect.

8.09 Approve Purchase of Calero School Site; Approve Contract for Purchase of Calero School Site

Counsel Ruiz indicated that a copy of the contract is posted on the District’s website for review. The sale and negotiation of the contract has been a fluid and an ongoing basis. There is one minor correction that needs to be made before the Board takes any action and one revision; paragraph 6b of the draft contract specifies that the Measure G funds would be used to pay the purchase price is an error, it should read Measure E; paragraph 29 of the draft contract grants to Oak Grove School District the right to repurchase the property under specific and limited circumstances. The form of contract that was circulated earlier in the week has a change and paragraph 29 has been revised. A copy of the revised paragraph 29 is available from the Board Clerk and has been distributed to the Board in advance of the Board meeting of this open session.

Member Biehl offered a motion to approve the real property purchase and sale agreement as amended and offered a suggestion separately from the motion to deal with the issue of the fee with The Staubach Company; he would like to separate the two issues.

Motion to approve the purchase of Calero School Site in accordance with the terms of the Real Property Purchase and Sale Agreement between the East Side Union High School District and the Oak Grove School District as approved by counsel and further, that the Board hereby authorize the Superintendent or his designee to transfer all funds and to execute on behalf of the
District all documents necessary to complete this transaction and close the escrow in accordance with the contract terms made by Clerk Shirakawa, second by Member Herrera.

Member Bielh is in support and thinks it is a good opportunity for the district and that discussions need to be held in the future as to how they are going to use it and that decision does not need to be made now. The suggestions offered by PACT is something that should be looked into and he will be voting for it and that after the Board is done voting, he would like to make another suggestion.

Vice President commended Counsel, the Superintendent and the Staubach team for the negotiation process. It was a good process and thinks it is a win-win for everybody. He agrees with Member Bielh that the use is to be determined.

President Nguyen thanked them for their hard work.

Vote: 5/0

Member Bielh made a suggestion on the compensation for The Staubach Company. There was no clear contract with them, but it was clear that there would be compensation. It is made very clear in the contract that we don’t have a buyer’s agreement with them, that we are not being obligated by any agreement that was entered into by Oak Grove with their broker and it has been referred to as a consulting contract. He asked that the Superintendent meet with Staubach team and bring back next week with a consulting bill that relates to the project that was endeavored to be completed, the number of hours that was spent and a reasonable hourly rate.

Motion made by Member Bielh meet with Staubach and bring back next week and also have the exact level of compensation for the Calero site.

Member Bielh said that the memo provided states that Staubach’s assistance was requested and that Staubach did not act as the District’s broker, but was instrumental in helping the District’s administration formulate an acquisition strategy. Per the District’s agreement with the Staubach Company, the district has agreed to pay Staubach a 2.5% commission in connection with the real Property acquisition or dispositions in connection with the District’s asset utilization strategy or otherwise negotiated and agreed with The Staubach Company and the district. It says specifically, “This transaction is not such a broker transaction.

Counsel Ruiz stated that the contract with Staubach was Approved on December 13, 2007. That RFQ was built Around the asset utilization and reuse plan, including the execution of transaction and furtherance of a plan that
would be adopted by the Board. There is a discussion in
the contract relating to brokerage services and what the
Superintendent is trying to get to is that this was not a
typical type of broker transaction because this was not a
transaction brought by Staubach, but was found by
Mr. Garofalo. The 2.5% commission was relating to the
future real estate transactions as part of the asset reuse
plan.

Superintendent Nuñez indicated that he does not have the
authority to go out and enter into a $200,000 contract.
The last two Board meeting he was given direction to go
to Staubach and get an amount.

Member Biehl indicated that was not true.

Superintendent indicated that is was true; it was the
direction that was given to him and in dealing with
Staubach their amount was 3.5 and they came down to
1%, which was appropriate. He was following the
direction given to him by the Board.

Member Biehl was left with the impression that we did not
have a brokerage agreement with anyone. He was under the
understanding that we would pay a reasonable fee that was
necessary; he never had the idea that there would be a
recommendation for $200,000. He needs to think about
what the $200,000 could be used for. He has a problem
with the way it was handled; it is a substantial amount.

Counsel Ruiz made a statement about Closed Session
discussions being discussed in open session.

Member Herrera indicated that Staubach’s expertise is
what moved us to where we are today with this. There is
program value and asset value. He is not opposed to
the 1%. He does know that we need to be prudent, but
in this case it is defensible.

Vice President indicated that the negotiated amount of
1% is fair. This deal we got was a good deal. As Vice
President Garcia said, “It was a win win.” He
appreciated Member Biehl’s concern, but has to trust
the relationship the Superintendent has with the
service provider and they made a commitment to work
with each other. It is fair and he can defend it and feels
comfortable with it.

Member Biehl feels you have to be careful not to get in
situations where you make your deal on basically well what
is it worth to you and he learned that in business you find
out what the market rate is to get the job done and willing to
pay the market rate fairly to get the job done. He raised his
concerns earlier on this issue and will raise them again.
He recommended again that the Superintendent meet with the
two representatives from Staubach, get documentation and
bring it back to the next meeting. He is going to put that in
the form of a motion.

A substitute motion to approve the Superintendent's recommendation to pay the 1% fee of $200,000, second by Vice President Garcia.
Vote: 4/1 Member Biehl voting No

MEMO

Date: June 19, 2008

To: East Side Union High School District Board

From: Frank Biehl, Board Member

I joined 240 delegates representing school boards from all parts of the state in Sacramento on May 17-20 2008. The Delegate Assembly spent the first part of the long weekend in discussions relating to key platform issues and endorsed new revenue principals to guide our association’s response to the current budget crisis.

This new revenue position augments the association’s opposition to a “cuts-only-budget.” CSBA leaders are now prepared to respond to any revenue measures introduced in the legislature or placed before the voters in a statewide proposition.

CSBA endorsed adequacy, equity and simplicity as the guiding principals to be used in evaluating any revenue proposal. The organization will not, however, initiate tax legislation.

On Sunday, at noon, CSBA’s Legislative Conference convened. We received a detailed briefing on the Governor’s May revised budget proposal and prepared our strategy for meetings scheduled with legislators the next day.

Our position was summarized as follows:

1. We oppose a “cuts-only-budget.”
2. We oppose the Governor’s Budget Stabilization Act because it locks-in education spending at an inadequate level.
3. We oppose a short-term fix. Education requires long-term, stable funding.

On Monday 200 school board members, picket signs in hand, marched on the Capitol to deliver 325 resolutions passed by school boards around the state in opposition to the Governor’s proposed budget. We then met in small groups with our respective local legislators or their representatives.

I met with Assembly Speaker pro Tempore, Sally Lieber and Senator Joe Simitian. Additional meetings included representatives from Senator Able Maldanado and Assembly Members Joe Coto and Anna Caballero offices.

Vice Mayor Cortese and Silicon Valley Education Foundation Sacramento Education Advocacy Bus Trip, May 21, 2008

For the last several years Vice Mayor, Dave Cortese has organized a bus trip to Sacramento to advocate for education. This year the Silicon Valley Education Foundation joined in underwriting the cost of the activity. The bus was filled with East side community representatives including, parents, senior citizens, activists and school board members.

We left the Eastridge parking lot at 7:00 AM and arrived at the Capitol at 9:30 AM. On the trip up I briefed our group on the Governor’s May revised budget. At the Capitol we were seated in an Assembly committee room. Throughout the day we met with the following:

Assembly Members; Jim Beall, Joe Coto, John Laird, Anna Caballero & Ira Ruskin Senators; Able Maldonado, Joe Simitian (staff), Elaine Alquist (staff)
Superintendent Jack O’Connell
CTA Legislative Affairs, Estelle LeMieux

The interchange was open and honest. Democrats will oppose a “cuts-only-budget.” Republicans will oppose any proposed tax increase. Because of the required 2/3 super majority required for budget passage all expect a protracted fight and a very late budget.

Budget Town Hall Meeting, June 5, 2008

Assembly members, Jim Beall, Joe Coto Sally Lieber, Ira Ruskin and Albert Torrico, the majority leader, sponsored this public hearing. Along with 370 other individuals, I attended the meeting that was held at the Center for Employment Training. I expressed our continued concerns regarding the Governor’s education and social services budget proposal.

Graduations

I attended graduation ceremonies for Foothill, Santa Teresa, Pegasus and Apollo. The experience was renewing and inspirational. It is an honor to be present at such an important transitional moment in our students lives.

This is good news for East Side because these numbers will help achieve funding equalization between districts. Equalization requires CCOC enrollment to be in balance with district-site, Regional Occupational Program (ROP) enrollment when compared to other MetroEd member districts. East Side is long on CCOC and short on ROP. Other member districts are just the opposite. For equalization, other MetroED member districts need to continue to enroll more students into CCOC. We need to certify more of East Side’s Career Technical Education (CTC) classes as ROP and enroll more students into these certified classes.

Recommendation
Place this proposed policy on the August 21, 2008 Board agenda for discussion and action:

_It shall be the policy of the East Side Union High School District (ESUHSD) to work cooperatively with MetroED to establish additional, district-site, Regional Occupational Program (ROP) classes so as to achieve a balance between Central County Occupational Center (CCOC) and ROP enrollment. All new ESUHSD Career Technical Education (CTE) classes shall be certified to meet ROP standards._
