The iBoss device provides the appropriate filtering to both protect ESUHSD students and staff; and comply with federal guidelines and standards as they relate to Children’s Internet Protection Act (CIPA) and requirements for E-Rate funding. The iBoss provides several other elements that are critical to current and future success in providing access and bandwidth to our users. It allows us, for the first time, the ability to meter and expand bandwidth for specific applications and websites. It allows us to prioritize traffic and, by doing so, it will maximize our current bandwidth. In the future, when we have additional bandwidth, it will provide us the ability to customize the quality of service different groups receive.
