2) Implementation of State Standards
3) Parent Involvement
4) Pupil Achievement
5) Pupil Engagement
6) School Climate
7) Course Access
8) Other Pupil Outcomes, with the overarching goal of preparing all students for college and careers

LCAP Goals
Goal 1: College and Career

Key Performance Indicators

- Develop College & Career Readiness Indicators (5C’s): Critical Thinking, Communication, Collaboration, Creativity, Civic Engagement
- Decrease achievement gaps as defined in measures 1-3 and other indicators, such as suspension and expulsion rates

52% of students that come in as 9th graders are on track for UC A-G completion, which means that 48% of incoming 9th grade students are not on track for UC A-G completion. To get to UC A-G status, students must achieve a C or higher.
Class of 2017

Areas of Growth

Areas To Work On
- On track at each grade level with a focus on grade 9
- Create policies and procedures that support students who transfer into our school mid-year and after grade 9 in high school
- Use early warning lists to target students for intervention
- Support teaching methodologies that support struggling learners
- Recruit underrepresented populations into AP/IB course

Recommendations As To How We Respond
- Move beyond surfacing students needing intervention
- Develop student data that informs the instructional shifts needed
- Incorporate the required system, instructional and cultural responses required
- District-wide commitment to engage in this work

Next steps:
Identify the non-cohort students and garner input from them. Once the input is analyzed, develop and implement structural and policy support systems that address how best to support teachers in their responses to these students and provide teachers the appropriate resources needed in the classroom. The ultimate goal is to increase graduation rates for non-cohort students. In addition, it will be important to connect these students with resources and support in our schools and the larger community.
