About the SARC

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. All data are reported for the 2011-12 school-year, unless otherwise indicated. For more information about SARC requirements, see the California Department of Education (CDE) SARC webpage at www.cde.ca.gov/ta/ac/sa/. For additional information about this school, please contact the school administration at 408.347.4700.

School Description

Yerba Buena High School continues to work diligently to provide all students a quality education. While the school did not meet its API target we are encouraged by the fact that we met 14 of the 22 federal criteria under AYP. With the implementation of the various intervention programs both in English Language Arts and in Mathematics we hope to see students not only perform better on the standardized tests but in their overall academic development. The entire staff is working together with the support of the parents and the entire Yerba Buena Community to ensure that all our students are successful.

Opportunities for Parental Involvement

The school learning community through parent involvement strives to establish practices and expectations that promote personal relationships and personal attention to its students. Five general parent meetings were held throughout the school year with a focus on family and school. In addition, parents are recruited to join the School Site Council, ELAC (English Language Advisory Committee), and DAC/BDAC. In addition to meetings the school has made efforts to provide social events for parents so that they can begin collaborating so they can support each other.

For more information about getting involved with Yerba Buena please call the main school at (408) 347-4700.

Suspensions Rate	16.78	11.87	15.53
Expulsions Rate	0.15	0.14	0.1

* The rate of suspensions and expulsions is calculated by dividing the total number of incidents by the total enrollment (and multiplying by 100).

School Safety Plan

This section provides information about the school's comprehensive safety plan, including the dates on which the safety plan was last reviewed, updated, and discussed with faculty; as well as a brief description of the key elements of the plan.

The Yerba Buena School Safety Committee has developed a school safety plan and monitors its implementation. The plan covers everything from violence prevention to earthquake preparedness. On a yearly basis the school safety plan is updated and reviewed. Important to the plan is the Parent and Community Safety Council held at the district level. Information shared at the meetings assists in updating safety matters at the site level.

School Facility Conditions and Planned Improvements (School Year 2012-13)

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

- Description of the safety, cleanliness, and adequacy of the school facility
- Description of any planned or recently completed facility improvements
- The year and month in which the data were collected
- Description of any needed maintenance to ensure good repair

Year and month in which data were collected: October 2012

Overview

The District makes every effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the school office and at the district office.

Cleaning Process and Schedule

The district's Board of Trustees has adopted cleaning standards for all schools in the district. The Leadership Team works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance Budget

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floors systems.

Age Of School Buildings

Yerba Buena High School has completed its 39th year of operation. The campus is currently being renovated through Measure E funds. Classroom renovations in the science (600 building), math (200 building), and social science (300 building) have been completed with 49 classrooms modernized. Classroom computers have been replaced or upgraded to handle new features such as electronic classroom attendance, electronic classroom resources and teacher e-mail.

The school has also completed renovation of its stadium which includes a new all weather track and field and new bleachers. The front of the school has been renovated adding much needed visitor parking.

Modernization Projects

The 700 building and the physical education locker room modernization projects will begin during the 2010-2011 school year. The Guidance Office will be relocated to the front of the school near the other administrative offices to better serve the community. In addition to these projects, solar panels will be installed over the main parking lot.

School Facility Good Repair Status (School Year 2012-13)

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair
- The Overall Rating (bottom row)

Professional Development

This section provides information on the number of days provided for professional development and continuous professional growth in the most recent three year period.

Professional development opportunities for staff members are multifaceted and clearly and consistently linked to the state's standards, district goals, the school's core values, and occur during the school year and summer break. Our school has a coherent, comprehensive plan for professional development that is data driven and directly linked to teaching and learning. Not only do teachers and staff participate in staff development opportunities at the school, but they also take advantage of multiple professional development opportunities at the District. In addition, many teachers take professional growth classes at local colleges and universities and attend workshops offered by the Santa Clara County Office of Education. BTSA and new teacher orientation meetings support new instructors. The school has created and successfully implemented a collaboration model for professional development. School wide and departmental meetings are held regularly so that teachers can continue to work on professional development to support school-wide efforts to align curriculum with rigorous state content standards as well as to provide instructional support for literacy and differentiation to assure the achievement of all students.

To ensure a cycle of continuous improvement, professional development is personalized to address the needs of all subject-area teachers, staff, and administrators. Not only do professional development activities for teachers reflect a best practices approach, but they also align with the California Standards for the Teaching Profession. Teachers and staff participate in professional development that is aligned with their individual fields and district plans at multiple levels. At the school level, professional development is structured to have a generalized focus (e.g., standards-based instruction), and specific facets of the professional development program (e.g., specific instructional strategies) are personalized to address the specific content area dynamics and needs. For example, in English, teachers are examining student work to ascertain effective standards-based instructional strategies, while in Physical Education, teachers are reviewing the FitnessGram data to establish effective instruction strategies for physical fitness instruction. The district also offers a multitude of professional development opportunities to broaden teachers' knowledge, enhance their classroom management skills, and augment their repertoire of best practices instructional strategies.

Core Academic Classes Taught by Highly Qualified Teachers

The Federal Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind (NCLB), requires that core academic subjects be taught by Highly Qualified Teachers, defined as having at least a bachelor's degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. For more information, see the CDE *Improving Teacher and Principal Quality* webpage at: www.cde.ca.gov/nclb/sr/tq/

Types of Services Funded (Fiscal Year 2011-12)

This section provides specific information about the types of programs and services available at the school that support and assist students. For example, this narrative may include information about supplemental educational services related to the school's federal Program Improvement (PI) status.

- Collect data to identify students as (Core, Strategic or Intensive)
- Enroll strategic students in English 1and ELA CAHSEE intervention program.
- Read 180 ELA intervention program
- Enroll intensive students in LA3 w/Read 180 block. Language intervention programs
- Implement afterschool academic support programs (Homework Center, AVID, CAHSEE Intervention, MESA, and YWCA Project Inspire After School Program)
- Departments will develop common end-of-course assessments that incorporate Language Arts Standards tested by CAHSEE.
- Implement scaffolding and differentiated techniques in accordance with the district's Academic Language initiative
- Continue to implement a Saturday Academic and ADA Recovery Intervention Program
- Continue to implement an in-house intervention program.
- Provide a comprehensive parent and student support services
- MST services
- Campus Monitoring
- Smaller counselor to student ratio
- Parent literacy and support services

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2012-13)

This section describes whether the textbooks and instructional materials used at the school are from the most recent adoption; whether there are sufficient textbooks and instruction materials for each student; and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- **California Standards Tests (CSTs)**, which include English-language arts (ELA) and mathematics (Math) in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science (H-SS) in grades eight, and nine through eleven.
- **California Modified Assessment (CMA)**, an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- **California Alternate Performance Assessment (CAPA)**, includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the Percent of Students not tested, see the CDE STAR Results Web site at star.cde.ca.gov.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible. Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

EdData Partnership Web Site

EdData is a partnership of the CDE, EdSource, and the Fiscal Crisis Management and Assistance Team (FCMAT) that provides extensive financial, demographic, and performance information about California's public kindergarten through grade twelve school districts and schools.

California Physical Fitness Test Results

The California Physical Fitness Test (PFT) is administered to students in grades five, seven, and nine only. This table displays by grade level the Percent of Students meeting the fitness standards for the most recent testing period. For detailed information regarding this test, and comparisons of a school's test results to the district and state, see the CDE PFT webpage at www.cde.ca.gov/ta/tg/pf/.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest webpage at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. For detailed information about the API, see the CDE API webpage at www.cde.ca.gov/ta/ac/ap/.

Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The **statewide API rank** ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The **similar schools API rank** reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Federal Intervention Program (School Year 2012-13)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations webpage: www.cde.ca.gov/ta/ac/ay/tidetermine.asp.

Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, can be found at the CDE Adequate Yearly Progress (AYP) webpage at www.cde.ca.gov/ta/ac/ay/.

Admission Requirements for California's Public Universities

University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work.

For general admissions requirements, please visit the UC Admissions Information webpage at www.universityofcalifornia.edu/admissions/. (Outside source)

California State University

Eligibility for admission to the California State University (CSU) is determined by three factors:

- Specific high school courses
- Grades in specified courses and test scores
- Graduation from high school

Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information see the CSU webpage at www.calstate.edu/admission/admission.shtml. (Outside source)

Completion of High School Graduation Requirements

This table displays, by student group, the Percent of Students who began the 2011-12 school year in grade twelve and were a part of the school's most recent graduating class, meeting all state and local graduation requirements for grade twelve completion, including having passed both the ELA and mathematics portions of the CAHSEE or received a local waiver or state exemption.

California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade ten results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics to compute AYP designations required by the federal ESEA, also known as NCLB. For detailed information regarding CAHSEE results, see the CDE CAHSEE Web site at cahsee.cde.ca.gov/.

Career Technical Education Programs

This section provides information about Career Technical Education (CTE) programs including:

- Programs and classes offered that are specifically focused on career preparation and or preparation for work
- How these programs and classes are integrated with academic courses and how they support academic achievement
- How the school addresses the needs of all students in career preparation and/or preparation for work, including needs unique to defined special populations of students
- The measurable outcomes of these programs and classes, and how they are evaluated
- State the primary representative of the district’s CTE advisory committee and the industries represented on the committee

Our high school offers courses intended to help students prepare for the world of work. These career technical education courses (CTE, formerly known as vocational education) are open to all students.

Courses/Programs include:

- Engineering
- Construction Technology
