District Overview

The East Side Union High School District (ESUHSD), established in 1950, serves over 26,000 students in grades 9-12 at 11 comprehensive high schools, 7 alternative education sites, 7 child development centers and 10 independent charter schools. The District offers a robust career technical education program through its magnet programs, CA Partnership Academies, and an ROP JPA. The Adult Education Program serves an additional 8,676 students. The District has the seventh largest high school student enrollment in the State and the largest in northern California.

The District operates 11 comprehensive high schools—Andrew Hill, Evergreen Valley, Independence, James Lick, Mt. Pleasant, Oak Grove, Piedmont Hills, Santa Teresa, Silver Creek, W.C. Overfelt, Yerba Buena, one continuation high school—Foothill, three alternative high schools—Apollo, Phoenix, Pegasus, and three schools of choice—Accel, Calero and College Connection Academy. There are 13 charter schools operating in the East Side Union High School District. Ten (10) of the charter schools are authorized by the District: ACE Charter High School, Alpha: Cindy Avitia High School, B. Roberto Cruz Leadership Academy, Escuela Popular – Center for Training and Careers, Escuela Popular – Family Learning Center, KIPP San Jose Collegiate High School, Latino College Preparatory Academy, Luis Valdez Leadership Academy, San Jose Conservation Corps and Summit Public Schools: Rainier.

Located in the city of San Jose, Santa Clara County (Silicon Valley), the District encompasses 180 square miles, which geographically parallels approximately 14 miles of the east foothills of the valley. The East Side community has a population of over 574,502 rich in racial and cultural diversity. The student population is multi-cultural and is comprised of 51.7% Hispanic, 30 % Asian, 6% White, 2.5% African American, 1.6% multiple, 0.5% Pacific Islander, and 0.2% Native American. Over 40 native languages are spoken by East Side students. There are 5,398 students in our English Language Learners Program.

East Side employs 1208 certificated and 634 classified staff members and 93 adult education teachers.

There are seven elementary school districts that feed into ESUHSD. The District has strong partnerships with these feeders, as well as the community colleges and 4-year colleges in the area. Two examples of these partnerships are the Accel and College Connection Academy Programs. The District’s Accel Program is located on a community college campus. Students in this program can take college courses while they are completing their high school graduation requirements. The College Connection Academy Program is a grade 7 – 13 program created in cooperation with Franklin-McKinley School District and Evergreen Valley College with support from San Jose State University. Students in this program attend middle school on a high school campus and complete their high school graduation requirements while attending community college. The community has a tradition of involvement and interest in its schools. It is considered an ideal community because of its appealing climate, convenient geographical location and proximity to cultural centers and numerous institutions of higher-learning.

Mandatory School Attendance

Attendance is Critical

School attendance is required by law. Every child ages 6 through 18 years of age must attend school every day and on time. Parents/guardians are responsible for their child’s school attendance. You must let the school know if your child is not in school and give us a specific reason for the absence.

Excused Absences for Personal Reasons (Education Code Section 48205)

All absences must be verified in accordance with the Board Policy 5113, Education Code Section 48205, and California Code Regulation Title 5 Section 6.

A student shall be excused from school when the absence is:

1. Due to illness
2. Due to quarantine under the direction of a county or city health officer.
3. For the purpose of having medical, dental, optometric, or chiropractic services rendered.
4. For the purposes of attending the funeral services of a member of his or her immediate family, as long as the absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside of California
5. For the purpose of jury duty in the manner provided for by law.
6. Due to the illness or medical appointment during school hours of a child of whom the student is custodial parent.
7. For justifiable personal reasons, including, but not limited to, an appearance in court, attendance at a funeral service, observation of a holiday or ceremony of his or her religion, attendance at religious retreats (not to exceed four hours per semester), attendance at an employment conference, or attendance at an educational conference on the legislative or judicial process offered by a nonprofit organization when the pupil’s absence is requested in writing by the parent/guardian and approved by the principal or designated representative pursuant to uniform standards established by the Governing Board.
8. For the purpose of spending time with a member of the pupil’s immediate family, who is an active duty member of uniformed services as defined in Section 49701, and has been called to duty for, is on leave from, or has immediately returned from, deployment to a combat zone or combat support position. Absences granted pursuant to this paragraph shall be granted for a period of time to be determined at the discretion of the superintendent of the school district.

A pupil absent from school under this section shall be allowed to complete all assignments and tests missed during the absence that can be reasonably provided, and upon satisfactory completion, within a reasonable period of time, shall be given full credit therefore. The teacher of any class from which a pupil is absent shall determine, pursuant to the regulations of the Governing Board of the school district, what assignments the pupil shall make up and in what period of time the pupil shall complete those assignments. The tests and assignments shall be reasonably equivalent, but not necessarily identical, to the tests and assignments that the pupil missed during the absence.

Please be aware that any absences due to vacation are unexcused absences.

NOTICE to students and parents/guardians: Students may be excused from school without the consent of a parent/guardian for the purpose of obtaining confidential medical services. (Education Code Section 46010.1)
Attendance Awareness Tips

**KEY POINTS**

- Good attendance helps students do well in school and eventually in the workplace.
- Excused and unexcused absences easily add up to too much time lost in the classroom.
- Chronic absence, missing 10% of the school year or more does not just affect the students who miss school.
- We need to monitor how many days each student misses school for any reason so we can intervene early.
- Chronic absence is a problem we can solve when the whole community, along with parents and schools, get involved in improving attendance.
- Relationship building is fundamental to any strategy for improving student attendance.
- Reducing chronic absences can help close achievement gaps.

**Pay Attention to Attendance:**

*Keep Your Child On Track in High School*

Showing up for school has a huge impact on a student’s academic success starting in kindergarten and continuing through high school. Even as children grow older and more independent, families play a key role in making sure students get to school safely every day and understand why attendance is so important for success in school and on the job.

**DID YOU KNOW?**

- Students should miss no more than 9 days of school each year to stay engaged, successful and on track to graduation.
- Absences can be a sign that a student is losing interest in school, struggling with school work, dealing with a bully or facing some other potentially serious difficulty.
- By 9th grade, regular and high attendance is a better predictor of graduation rates than 8th grade test scores.
- Missing 10 percent, or about 18 days, of the school year can drastically affect a student’s academic success.
- Students can be chronically absent even if they only miss a day or two every few weeks.
- Attendance is an important life skill that will help your child graduate from college and keep a job.

**WHAT YOU CAN DO**

*Make school attendance a priority*

- Talk about the importance of showing up to school everyday, make that the expectation.
- Help your child maintain daily routines, such as finishing homework and getting a good night’s sleep.
- Try not to schedule dental and medical appointments during the school day.
- Don’t let your child stay home unless truly sick. Complaints of headaches or stomach aches may be signs of anxiety.

*Help your teen stay engaged*

- Find out if your child feels engaged in his/her classes and feels safe from bullies and other threats. Make sure he/she is not missing class because of behavioral issues and school discipline policies. If any of these are problems, work with your school.
- Stay on top of academic progress and seek help from teachers or tutors if necessary. Make sure teachers know how to contact you.
- Stay on top of your child’s social contacts. Peer pressure can lead to skipping school, while students without many friends can feel isolated.
- Encourage meaningful afterschool activities, including sports and clubs.

*Communicate with the school*

- Know the school’s attendance policy – incentives and penalties.
- Talk to teachers if you notice sudden changes in behavior. These could be tied to something going on at school.
- Check on your child’s attendance to be sure absences are not piling up.
- Ask for help from school officials, afterschool programs, other parents or community agencies if you’re having trouble getting your child to school.
KEY POINTS
Research has consistently shown that student achievement increases when parents are actively involved in their student’s education.

NOTICE to Students, Parents or Guardians:
Students may be excused from school without the consent of a parent or guardian for the purpose of obtaining confidential medical services. (Education Code Section 46010.1)

Truancy Process

Regular school attendance is of such critical importance to the future of the students and the community that extraordinary measures have been enacted by the State of California to encourage and require regular school attendance. In California it is the responsibility of the parent and student to ensure a student’s regular attendance in school.

Education Code Section 48260 defines a truant as a student who is absent from school without a valid excuse for a total of three (3) days in one school year or a student who is tardy three (3) times for more than thirty (30) minutes without a valid excuse during the school year, or any combination thereof. Under Education Code Section 48262 any student that has been reported truant three or more times during the school year shall be classified as a truant and shall be reported to the attendance supervisor.

- When three (3) unexcused absences or combination of absences and tardies have been recorded for a student, a notification letter of poor attendance will be sent by the school to the parents/guardians of the student.
- When two additional unexcused absences or combination of absences and tardies over 30 minutes have been recorded for a student, a second letter alerting the parents/guardians of attendance issues will be sent and the student will be classified as habitually truant. Additionally, the letter will require the parents/guardians and student to attend an attendance improvement conference with a school site official.
- Should two additional unexcused absences or combination of absences and tardies be recorded in a school year following the second letter, a final letter from the East Side Union High School District will direct the truant student and parents/guardians to attend a truancy mediation with the District Attorney’s Office at the ESUHSD District Office. At the mediation a presentation will be conducted whereby the student and parents/guardians will be informed of the consequences of truancy.
- Should truancy problems continue with the student after the truancy mediation, the school may refer the truancy matter as a criminal petition/complaint to the Santa Clara County District Attorney’s Office.

If necessary, further action may be taken by Santa Clara County Superior Court and/or Juvenile Court. Such action may include but is not limited to the following:
1. Filing of a criminal complaint against the parents/guardians for not complying with compulsory education statutes. (Education Code Sections 48200 and 48292)
2. Referral of the truant minor to the Probation Department or to the County Welfare Department under Section 300.
3. Suspension or delay of driving privileges for the truant minor. (Vehicle Code Section 13202.7)
4. Possible reductions or loss of State or Federal Government’s Financial Aid.

Health Insurance

Need Insurance or Health Care Information?

The District does not provide medical insurance coverage for school accidents. This means that each family is responsible for their medical bills if a student gets hurt during school activities. In accordance with Education Code Section 49472, the District is making available a low cost medical/dental insurance program through Pacific Educator’s Inc. More information is available on our website at http://www.esuhsd.org/Community/BusinessFinance/Student-Insurance/index.html.

An insurance brochure, showing the coverage options, is available at each school site. The Student Health Care and “High Option” 24-Hour Accident plans are especially recommended for those families with no other insurance because they provide the most help when injuries occur. Student Health Care covers illness as well as injury, 24 hours a day. If your family does have other health coverage, student insurance may also be used to help pay those charges not covered by your family insurance.

Residency Requirements for School Attendance  
(Education Code Section 48204)

California Education Code Section 48200 requires that a student enroll in the school district in which the student’s parent/guardian is a resident. A student shall also be deemed to have complied with the residency requirements for school attendance in a school district, if he or she is any of the following:

1. (A) A pupil placed within the boundaries of that school district in a regularly established licensed children’s institution, a licensed foster home, or a family home pursuant to a commitment or placement under Chapter 2 (commencing with Section 200) of Part 1 of Division 2 of the Welfare and Institutions Code.

   (B) An agency placing a pupil in a home or institution described in (A) shall provide evidence to the school that the placement or commitment is pursuant to law.

2. A pupil for whom interdistrict attendance has been approved.

3. A pupil whose residence is located within the boundaries of that school district and whose parent or legal guardian is relieved of responsibility, control, and authority through emancipation.

4. A pupil who lives in the home of a caregiving adult that is located within the boundaries of that school district. Execution of an affidavit under penalty of perjury pursuant to Part 1.5 (commencing with Section 6550) of Division 11 of the Family Code by the caregiving adult is a sufficient basis for a determination that the pupil lives in the caregiver’s home, unless the school district determines from actual facts that the pupil is not living in the caregiver’s home.

5. A pupil residing in a state hospital located within the boundaries of that school district.

TRANSFER OPTIONS
Parents/guardians may submit a request for their student to attend a school in a different attendance area than the area where they live. Parents/guardians may request a transfer to a school within the East Side Union High School District (intradistrict) or in a different district (interdistrict).

Open Enrollment (Intradistrict Transfers)
The parents/guardians of any student who resides within district boundaries may apply to enroll their child in any district school, regardless of the location of residence within the district. The request form may be obtained from the student’s school of residence and the completed form must be submitted to the school principal. An intradistrict transfer must be approved by both schools involved in the transfer.

Priority for attendance outside a student’s attendance area shall be given as follows:
1. If a district school receiving Title I funds is identified for program improvement, corrective action or restructuring, all students enrolled in that school shall be provided an option to transfer to another district school or charter school.
2. If while on school grounds a student becomes a victim of a violent criminal offense, as defined by the State Board of Education, or attends a school designated by the California Department of Education as persistently dangerous, he/she shall be provided an option to transfer to another district school or charter school.
3. The Superintendent or designee may approve a student’s transfer to a district school that is at capacity and otherwise closed to transfers upon finding that special circumstances exist that might be harmful or dangerous to the student in the current attendance area, including, but not limited to, threats of bodily harm or threats to the emotional stability of the student.
4. Priority may be given to siblings of students already in attendance in that school.
5. Priority shall be given to students whose parent/guardian is assigned to that school as his/her primary place of employment.

For all other applications for enrollment outside a school’s attendance area, the Superintendent or designee shall use a random, unbiased selection process to determine who shall be admitted whenever a school receives admission requests that are in excess of the school’s capacity.

Except as required for transfers out of Title I Program Improvement schools, the District shall not be obligated to provide transportation for students who attend school outside their attendance area.

To appeal a denial, contact the administration at your child’s school of residence. Please see Board Policy 5116.1.

Interdistrict Transfers
The form to request a transfer to a different school district may be obtained from the District and is submitted to the office of Student Services. Both districts must approve the request. Transportation to the new school is the responsibility of the parent/guardian.

Opportunities for Parent Involvement

Parent Involvement in School Committees

Every school in the district is committed to involving parents in the educational process. Numerous opportunities are available at each site. Some examples include:

- **School Site Council**—A committee of teachers, counselors, parents, students and administrators who are responsible for planning and sustaining the School Improvement Program and the School Safety Plan per SB 187.

- **School Advisory Committee and English Learners Advisory Committee**—These two committees include parents, staff and community members who advise the school on how best to serve non-English speakers and students scoring below grade level in math and reading.

- **Special Committees**—Advisory and information parent and staff committees who meet regularly to plan ways to assist and support magnet and academy program students, non-English speaking students and underachieving students.

- **Safety Council**—Each school has a group that meets to review, strengthen and monitor the implementation of the school’s Safety Plan. Contact your school’s Associate Principal for more information.

- **Booster Clubs**—These clubs usually provide support and direction to extracurricular activities on the campus.

*Contact your school’s principal (see pages 9-21 for names and phone numbers) for more information about parent involvement activities.*

- **District Advisory Committee/District English Learners Advisory Committee (DAC/DELAC)**—A group of parents, staff and community members, by elected School Site Committees, to provide on-going advice to the Superintendent and Board of Trustees:

1. Coordinating community resources in a concerted effort to address the academic needs of all students.
2. Evaluate the consolidated application programs and review information relative to the objectives of the programs to parents and the school community.
3. Overseeing all state and federal programs to ensure that the needs of the specific targeted student population (Special Education, EL, Title 1, and At-Risk) are being met in an effective, culturally appropriate and timely manner.
4. Giving the DAC/DELAC membership a communications forum to actively communicate and share interests, experiences, knowledge and concerns with each other.
5. The information is shared at each School Site Council’s meetings.

Parent Involvement in Extracurricular Activities

The lessons for our students do not end with the final bell of the day if they’re involved in extracurricular activities. In fact, the learning experiences that come from participation in drama, music, speech, athletics, and the like, promote lifetime values that cannot always be learned in the classroom.

Responsibility, respect, fairness, caring, trustworthiness and citizenship are lifetime values taught through extracurricular activities. With them, the spirit of competition thrives, fueled by honest rivalry, courteous relations and graceful acceptance of the results.

Your support of these programs or activities is essential as part of our educational mission. Here are some ways you can help:

- Realize that activities and competitions are part of the educational experience and the benefits of involvement go beyond the final score of a game or who wins the competition;

- Encourage our students to perform their best, just as we would urge them on with their classwork;

- Learn, understand, and respect the rules of the game, the officials who administer them and their decisions;

- Respect the task our coaches/advisors/band leader, etc., face as teachers, and support them as they strive to educate our youth, and your children;

- Respect our opponents as students, and acknowledge them for striving to do their best; treat them with courtesy;

- Develop a sense of dignity under all circumstances; and

- At events, urge our students on with positive cheers; discourage cheers that would redirect the focus - including those that taunt and intimidate opponents, their fans and officials; and reprimanding those who engage in such unsportsmanlike behavior.

You can be a part of a message sent through our community that athletics, drama, music, speech and other activities potentially have lifetime learning experience impact. Unlike events we see on television at the collegiate and professional level where entertainment is the mission and education is not a primary objective, our goal is to have a positive lifelong effect. This message must be communicated if we are to continue to have success in this area.
Parental Rights and Responsibilities

Tips for Parents

Helping Your Teenager Succeed in School

To succeed in school and work, teenagers need to know they are capable of doing a good job. Teachers working daily with high school students report that the most important “school supply” a teenager can bring to school is a “Can Do” attitude. Parents play a major role in building confidence in teenagers by encouraging them in the following ways:

• Be generous with praise—A good rule of thumb is five positive comments for each negative one. Don’t be insincere, but look carefully for things your teenager does right to comment on first—then approach the negative in a positive way.

• Encourage “personal best”—Help your teenager by encouraging him or her to do their “personal best” in school and at home. Remember, “personal best” does not mean “perfect,” and learning is not the same as high grades. Teenagers, like adults, must have the freedom to make mistakes and learn from them.

• Let your priorities show—Your attitude toward school attendance, education and involvement in the school makes a strong and lasting impression on your teenager.

• Keep skeletons in the closet—If you want your youngster to succeed, don’t provide such excuses as, “I was never any good at math either.”

• Show interest in school work—Talk about school each day. Ask to see class work, encourage your teenager to discuss new ideas and defend his or her opinions. Express your pride in thoughts expressed and skills shown. Show interest and appreciation.

• Avoid pressuring your teen—Pressure results from comparing one person against another. Inspire a young person to perform to his or her own “personal best.” Have specific suggestions about how your teen can do better:
  • Reading the assignment when it’s given.
  • Keeping a list of new vocabulary.
  • Proofreading material to catch errors, before writing a final draft.
  • Outlining a chapter to prepare for class.
  • Reviewing notes before a test.

• Help set goals—At the beginning of each quarter or semester of the school year ask your teenager to identify three or four goals. (You could settle for just one!) Put the goals where the teenager can frequently refer to them. (Many parents find the refrigerator an excellent spot.) Make sure the goals are more specific than just “better grades.”

Rights of Parents or Guardians of Minor Pupils

Governing Boards of school districts are required to notify parents or guardians of their rights as specified in the Education Code Section. The attached Education Code sections are concerned with these rights.

PUPIL’S RIGHTS TO REFRAIN FROM THE HARMFUL OR DESTRUCTIVE USE OF ANIMALS

32255—As use in this chapter:

a) “Animal” means any living organism of the kingdom animalia, beings which typically differ from plants in capacity for spontaneous movement and rapid motor response to stimulation, by a usually greater mobility with some degree of voluntary locomotor ability, by greater irritability commonly mediated through a more or less centralized nervous system, beings which are characterized by a requirement for complex organic nutrients including proteins or their constituents which are usually digested in an internal cavity before assimilation into the body proper, which are distinguished from typical plants by lack of chlorophyll, by an inability to perform photosynthesis, by cells that lack cellulose walls, and by the frequent presence of discrete complex sense organs.

b) “Alternative education project” includes, but is not limited to, the use of video recordings, models, films, books and computers, which would provide an alternate avenue for obtaining the knowledge, information, or experience required by the course of study in question. “Alternative education project” also includes “alternative tests.”

c) “Pupil” means a person under 18 years of age who is matriculated in a course of instruction in an educational institution within the scope of Section 32255.5. For the purpose of asserting the pupil’s rights and receiving any notice or response pursuant to this chapter, “pupil” also includes the parents of the matriculated minor.

32255.1—

a) Except as otherwise provided in Section 32255.6, any pupil with a moral objection to dissecting or otherwise harming or destroying animals, or any parts thereof, shall notify his or her teacher regarding this objection, upon notification by the school of his or her rights pursuant to Section 32255.4.

b) If the pupil chooses to refrain from participation in an education project involving the harmful or destructive use of animals, and if the teacher believes that an adequate alternative education project is possible, then the teacher may work with the pupil to develop and agree upon an alternate education project for the purpose of providing the pupil an alternate avenue for obtaining the knowledge, information, or experience required by the course of study in question.

c) The alternative education project shall require a comparable time and effort investment by the pupil. It shall not, as a means of penalizing the pupil, be more arduous than the original education project.

d) The pupil shall not be discriminated against based upon his or her decision to exercise his or her rights pursuant to this chapter.

e) Pupils choosing an alternative educational project shall pass all examinations of the respective course of study in order to receive credit for that course of study. However, if tests require the harmful or destructive use of animals, a pupil may, similarly seek alternative tests pursuant to this chapter.

f) A pupil’s objection to participating in an educational project pursuant to this section shall be substantiated by a note from his or her parent/guardian.
32255.3—
a) A teacher’s decision in determining if a pupil may pursue an alternative educational project or be excused from the project shall not be arbitrary or capricious.
b) Nothing in this chapter shall prevent any pupil from pursuing the grievance procedures in existing law.

32255.4—Each teacher teaching a course that utilizes live or dead animals or animal parts shall also inform the pupils of their rights pursuant to this chapter.

32255.5—Notwithstanding any provision of law to the contrary, this chapter applies to all levels of instruction in all public schools operating programs from kindergarten through grades 1 to 12, inclusive.

32255.6—Classes and activities, conducted as part of a program in agricultural education that provide instruction on the care, management, and evaluation of domestic animals are exempt from the provisions of this chapter.

REQUIRED NOTIFICATION OF RIGHTS; TIME OF NOTIFICATION

48980—
a) At the beginning of the first semester or quarter of the regular school term, the governing board of each school district shall notify the parent/guardian of its minor pupils regarding the right or responsibility of the parent/guardian under Sections 35291, 46014, 48205, 48207, 48208, 49403, 49423, 49451, 49472, 51938, and Chapter 2.3 (commencing with Section 32255) of Part 19 of Division 1 of Title 1.

COOPERATION IN CONTROL OF COMMUNICABLE DISEASES AND IMMUNIZATION OF PUPILS

49403—(a) Anything to the contrary notwithstanding, the governing board of any school district shall cooperate with the local health officer in measures necessary for the prevention and control of communicable diseases in school age children. For that purpose the board may use any funds, property, and personnel of the district, and may permit any person licensed as a physician and surgeon, or any person licensed as a registered nurse acting under the direction of a supervising physician and surgeon as provided in subdivisions (b) and (c), to administer an immunizing agent to any pupil whose parents have consented in writing to the administration of such immunizing agent.

ADMINISTRATION OF PRESCRIBED MEDICATION FOR PUPIL

49423—Notwithstanding the provisions of Section 49422, any pupil who is required to take, during the regular school day, medication prescribed for him by a physician, may be assisted by the school nurse or other designated school personnel if the school district receives: (1) a written statement from such physician detailing the method, amount, and time schedules by which such medication is to be taken, and (2) a written statement from the parent/guardian of the pupil indicating the desire that the school district assist the pupil in the matters set forth in the physician’s statement.

PARENT’S REFUSAL TO CONSENT

49451—A parent/guardian having control or charge of any child enrolled in the public schools may file annually with the principal of the school in which he/she is enrolled a statement in writing, signed by the parent/guardian, stating that he/she will not consent to a physical examination of his/her child. Thereupon the child shall be exempt from any physical examination, but whenever there is a good reason to believe that the child is suffering from a recognized contagious or infectious disease, he/she shall be sent home and shall not be permitted to return until the school authorities are satisfied that any contagious or infectious disease does not exist.
Parents can request in writing that their child not attend classes in which human reproduction organs and their functions (comprehensive sexual health education) or HIV/AIDS are described.

The goal of a comprehensive sexual health education program is to help students learn the facts and to make good decisions now, and later in life.

The District shall annually notify parents/guardians about instruction in comprehensive sexual health education, HIV/AIDS prevention education and research on student health behaviors planned for the school year. Written and audiovisual educational materials used in such education are available for inspection. Parents/guardians will be notified prior to the commencement of any such instruction as to the date of the instruction, whether the instruction will be taught by District personnel or by outside consultants, the name of the organization or affiliation of any guest speakers, and whether it will be taught in class or during an assembly. A copy of the law pertaining to such instruction is available upon request from the District. Parents/guardians may request in writing that their child not receive comprehensive sexual health education and/or HIV/AIDS prevention education. The law also authorizes the District to use anonymous, voluntary, confidential research and evaluation tools to measure student’s health behaviors and risks. This includes tests, questionnaires, and surveys containing age appropriate questions about the student’s attitudes concerning or practices relating to sex. The District must notify parents/guardians in writing before any such test, questionnaire, or survey is administered.

Parents may request in writing that their child not participate in middle school and in high school. If comprehensive sexual health education is taught, the District shall follow state laws (California Education Code Section 51933). The District may not pick and choose topics to teach.

Mandatory HIV/AIDS Curriculum: California state law requires that HIV/AIDS prevention education is taught in middle school and in high school. If comprehensive sexual health education is taught, the District shall follow state laws (California Education Code Section 51933). The District may not pick and choose topics to teach.

HIV/AIDS prevention instruction includes:

- Information on HIV/AIDS and how it affects the body.
- How HIV is and is not spread.
- Discussion of ways to lower the risk of HIV, including:
  - Sexual abstinence and the latest medical information on ways to prevent sexually transmitted HIV infection.
- Discussion of the public health issues related to HIV/AIDS.
- Places for HIV testing and medical care.
- Making good decisions and staying away from risky activities.
- Discussion about society’s views on HIV/AIDS, and people with HIV/AIDS.

You can examine instructional materials for this unit of instruction at the main office of your son or daughter’s high school. If you have questions, please see the teacher or principal. State law allows you to remove your student from comprehensive sexual health education or HIV/AIDS prevention education. If you do not want your student to participate in the comprehensive sexual health or HIV/AIDS prevention instructional program, please return the Lesson Withdrawal Form on page 58 to your student’s biology course teacher by December 1, 2016. The goal of a comprehensive sexual health education program is to help students learn the facts and to make good decisions now, and later in life.
Criteria for Grades
The teacher will teach the course objectives and the grade will reflect the degree to which the student has mastered them. Course objectives include those found in the course description and others determined by the teacher. When the student enrolls, the teacher should give, in writing, the course description, major objectives and the criteria the teacher will use to determine grades. During each quarter the teacher should notify the parent with a progress report if a student is receiving a “D” or an “F” in the course. Information on opportunities for assistance will be included in the progress report.

Range of Grades
Grades are intended to reflect the student’s mastery of course content standards, objectives, and other objectives found in individual education plans. The attainment of an “A” grade shall be possible for every student in every class. The range of grades will reflect a student’s mastery of course content standards and objectives as follows:

A  The student has attained excellent mastery of objectives.
B  The student has attained above average mastery of objectives.
C  The student has attained satisfactory mastery of objectives.
D  The student has attained minimal mastery of objectives.
F  The student has not attained minimal mastery of course objectives.
I  (Incomplete) The student has attained only partial mastery of objectives due to extenuating circumstances. A designated grade “A” to “F” must accompany the INC. The student must satisfactorily complete objectives within twenty school days or the incomplete will revert to the designated grade.
P or NP (Passed or Not Passed) The student assistant/aide will receive a grade of passed or not passed.
AUD  (Audit) A student has not attained minimal mastery of objectives in summer school.
WD  (Withdrawal) A student has withdrawn from summer school for any reason.

The range of grades to compute GPA will be based on a four-point system (A-4.0 to F-0). INC, P, NP, AUD and WD will not be used for GPA.

Semester grades are used to compute GPA. Grades issued at the end of six weeks are progress grades only.

Classroom Behavior
Course objectives should include learning and demonstrating appropriate student behavior; such behavior may be graded after expectations have been made clear to the student. If there are no learning objectives related to student behavior, behavior that interferes with classroom instruction and learning will become a disciplinary matter and will not affect the grade.

Participation
1. Regular attendance in classes is an important aspect of the educational process. The student who is absent from class for any reason has missed important instruction and interaction that cannot be gained in any other way.
2. A portion of the grade may be based on the student’s classroom participation. Participation generally includes oral participation, board work, laboratory work, productive use of time, preparedness (bringing materials to class) and interaction (student to student, student to teacher).
3. When classroom participation is to be used as a portion of the grade, the teacher must first inform the student how participation will be graded.
4. Grading of classroom participation may be based solely on the teacher’s observation of student performance.
5. Classroom participation must be recorded if it is to be a component of the final grade.

Summer School
The range of actual letter marks in summer school will run from “A” to “D”. If a student fails a class, he/she will have AUD (audit) marked on his/her transcript. If he/she withdraws for any reason, he/she will be given a WD (withdrawn) on his/her transcript. In cases where AUD or WD are used, no credits are assigned or given; therefore, the summer school course shall not be used for GPA purposes.

Unexcused Absences
When an unexcused absence occurs, the student and parent/guardian shall be notified and informed of the District’s policy regarding excessive unexcused absences. The student and parent/guardian shall have a reasonable opportunity to explain the absence. (Education Code Section 49067)

If the absence is not verified as excusable within ten days, it shall be recorded as unverified. The person receiving any explanation of the absence by the parent/guardian shall make a record of this explanation and the date when it was given.

If a student receives a failing grade because of unexcused absences, school records shall specify that the grade was given because of excessive unexcused absences. (Education Code Section 49067) (cf 5113-Absences and Excuses)
Withdrawal from Classes
Students may drop courses from their schedules up to the end of the seventeenth day of class in the first semester and up to the end of the fifth day of class in the second semester. After that time, a student will be held responsible for completing the remainder of the course work. A student who drops a course after these deadlines shall receive an F grade on his/her permanent record unless otherwise determined by the principal.

Examinations
It is the intent of this regulation to delineate procedures for providing student and parents appropriate, timely feedback on examination performance through review and analysis of problem areas, whether through phone calls, meetings or correspondence. It is also the intent of this regulation to strengthen home to school communication and increase avenues of meaningful parent participation in their student’s education.

Dissemination of Examination
In promoting parent/student interest, in obtaining examination feedback information, teachers will inform parents of class test return procedures through:
1. Green sheets, and/or
2. Class rules and procedures bulletins.
The above is to be disseminated to each student and/or parent within the first weeks of the start of class. A copy should be retained by the student or parent.

Examination Return Procedure
Teachers recognize the importance of teacher/student/parent review of any and all forms of examinations in a timely manner; therefore examinations shall be:
1. Returned to all students within the guideline of seven school days with the exception of essay exams, in which case additional return time would be necessary.
2. Reviewed as thoroughly as possible in class.
3. Made available for parent/home review and use.
4. Secure exams returned to parents/guardians will require a signature from the parent pledging to protect the confidentiality of the exams.

Secure Examinations That May Be Exempted
In order to promote maximum information and feedback on examination performance, teachers are encouraged to eliminate after-test security whenever possible.

Types of Exams That May Be Exempted
1. District standardized tests
2. Exams where the test medium is impractical to send home
3. Final examinations
4. State/national achievement tests
5. Unit exams covering multiple chapters and/or concepts

Alternatives to Returning of Secure Exams
1. Review of similar test
2. Return of analysis of problems most frequently missed by students.
3. Return of only the problems missed
4. Parent/teacher conference where exam is reviewed but not issued to the parent for home use.
Teachers are encouraged to use any of the above in providing examination feedback on secure exams.

Exam Return Appeal Procedure
In those cases where a parent/teacher conflict arises from test return procedures and/or practices, and where a resolution cannot be reached, the following appeal procedures shall be used:

1. First Level
The first level is a referral to the local school site council for a timely review and resolution. A decision will be reached and communicated to the parties within a guideline of 30 days or as soon as possible.

2. Second Level

School personnel are exempt.

Education Code Section 49070: Challenging the Content of Student Records

KEY POINT

- **Military Recruiters Information:**
  
  Federal law requires school districts to provide names, addresses, and telephone numbers of 11th and 12th grade high school students to military recruiters unless the parent or student opts out by notifying the school in writing that he/she does not consent to release this information. (Please note: An opt out form for this is available on page 59.)

DIRECTORY INFORMATION

The District has designated the following eight items as directory information for students: name; address; participation in school activities and sports; weight and height of members of teams; dates of attendance; degrees and awards received; year in school; and, major field of study. Directory information may be released, on request, to accredited post secondary institutions of higher learning such as public community colleges, public or private universities and colleges, armed services of the United States and the news media provided the parent has not instructed the district, in writing, to withhold such information. Effective July 1, 2002, military recruiters are entitled to access student directory information, such as name, address and phone number. Parents wishing to have directory information withheld should complete the Opt-Out Form and return it to your student’s school.

PICTURES

It is the policy of the East Side Union High School District to create student photos/images and written information for ID badges, the student information system and yearbook publications which may be transmitted in print and electronic form for school and school district uses. Throughout the school year, staff of the East Side Union High School District or members of the media may come to our classrooms or to school events in order to photograph students for District publications and displays, website, news stories or similar purposes. If you object to having your child televised, voice recorded, video recorded, or photographed, please sign the Refusal for Photographs, Videos and Other Recordings form in this handbook and return the form to your school office.

INTERNET ACCEPTABLE USE POLICY

The East Side Union High School District is aggressively pursuing placing more computers in classrooms for students to access. Understanding and using technology will be the key for jobs in the 21st century and the District wants to ensure that its students are competitive candidates.

The Information Superhighway can be an incredible resource for students. From school they can travel all over the world to gather information. But as they travel on the electronic highway, maps to find information and rules to keep traveling safe become vital to successfully completing the journey.

The East Side Union High School District Network and the INTERNET represent powerful educational resources that will allow students to find information in this worldwide electronic network. Students can connect to businesses, major universities, national libraries, other schools and other students around the world. The INTERNET is not without its share of controversy. It is important that students and parents have an understanding of INTERNET issues prior to logging on to the network.

At the beginning of each school year, prior to using networking services, students and parents need to sign an Acceptable Use Policy. Just as students learn social codes and behavior that are acceptable at school, they need to learn the correct procedures and rules for using the network of information services. All students are expected to obey the guidelines. **If they break any of these rules, they will not be allowed to continue to use the computer network.** The signed policy agreement becomes the permission slip to take trips on the information highway.
PARENT NOTIFICATION AND OPT-OUT FORM

FOR STUDENT HEALTH AND WELLNESS SURVEYS ADMINISTERED BY THE EAST SIDE UNION HIGH SCHOOL DISTRICT

(Including the California Healthy Kids Survey, the State Student Behavior Survey, National Youth Risk Behavior Survey and other behavior surveys related to specific youth)

Dear Parent or Guardian,

Your child may be asked to participate in one or more Health Behavior Surveys while attending school in our District. Some of the surveys are listed above. Those are administered on behalf of the State Department of Health Services, the State Department of Education and The National Center for Disease and Control. These are mandatory for all school districts and are very important surveys that help promote better health among our community’s youth and combat teen problems such as drug abuse and violence. Please read this form for information about the surveys. If you do not want your child to participate in the surveys, you must notify your school. You may use the form on the opposite page. (California Education Code 51938(f))

The following are facts to help you make your decision:

Survey Content: Surveys usually take one class period to complete. They gather information on health-risk behaviors such as physical activity and nutritional habits; alcohol, tobacco, and other drug use; sexual activity, violence, gang membership, and delinquency. There are no questions about family values or religious beliefs.

Student Selection: Students are selected randomly by grade level within certain courses of study.

It is Voluntary: Students answer the questions they want to answer and they may stop at any time. Before the survey begins, the survey’s purpose, content, and procedures will be explained again. They can opt-out.

It is Anonymous & Confidential: Your child’s privacy is protected. No names are recorded or attached to the surveys. No information will permit your child to be identified or connected with his/her answers. Survey administrators have signed pledges of confidentiality.

Survey Follow Up: The Survey results are made available to the schools to share with the staff, students and parents. The school’s Student Support Services are available to answer personal questions that may arise. In rare instances, some discomfort might be experienced from some of the questions.

More Information and Viewing Survey Content: Read the information on the opposite page on how the survey results are used by the schools and how to obtain more information and view some of the Surveys.

Thank you for your support.

If you do not want your son/daughter to participate, complete the opposite side of this Opt-Out Form and return to your School’s Principal.

Due by October 1st.
Where to Find Information and Copies of Some of the Surveys Administered:

You may examine some of the questionnaires in the District’s Student Services Office, at your school’s Student Support Service Center or at the websites listed below:

◆ District’s web-page www.esuhsd.org (select “Student Services”, then go to “Healthy Kids Report”)

◆ The California Healthy Kids Survey (CHKS) toll free at (888) 841-7536 or www.californiahealthykids.org then select “Surveys and Reports”. This survey may be given in our District on an annual basis.

◆ California Student Survey (given every two years for the state’s “snap shot” overview of youth).

◆ National Center for Disease Control Youth Risk Behavior Survey
  www.cdc.gov/HealthyYouth/yrbs/index.htm

How Do Schools Benefit? The data received from these surveys provides districts with information to meet several CDE (California Department of Education) requirements for schools to continue to receive Federal and State funding. For example:

1. Required LEAP (Local Education Agency Plan) data is aligned with the CHK Survey.
2. SDFSCA (Safe and Drug Free Schools Community Act) and TUPE (Tobacco Use Prevention Education) funding requirements are met by the surveys. Survey results are used in annual reports to show progress on goals and performance indicators.
3. Federal Coordinated Compliance Reviews data requirements are met by the surveys.
4. Distinguished School Applications and many other grant applications are strengthened by use of the survey data.

These surveys and others like the national Youth Risk Behavior Survey provide necessary data to help districts/schools/county health departments assure healthy, safe environments. Research has demonstrated that ensuring that students are safe, drug-free, healthy and resilient is central to improving academic performance and promoting positive youth development.

STUDENT HEALTH AND WELLNESS SURVEY OPT-OUT FORM

This will be kept on file until your son or daughter graduates or moves out of our area. By returning this form, I DO NOT give permission for my student to participate in any surveys as described above.

KEY POINT
East Side offers excellent Alternative Education Programs for students. Call 408.928.9111 for information.

ALTERNATIVE ACADEMIC PROGRAMS

NOTICE OF ALTERNATIVE SCHOOLS
California State law authorizes all school districts to provide for alternative schools. Section 58500 of the Education Code Section defines alternative school as a school or separate class group within a school which is operated in a manner designed to:

a) Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility and joy.
b) Recognize that the best learning takes place when the student learns because of his/her desire to learn.
c) Maintain a learning situation maximizing student self-motivation and encouraging the student in his/her own time to follow his/her own interests. These interests may be conceived by him/her totally and independently or may result in whole or in part from a presentation by his/her teachers of choices of learning projects.
d) Maximize the opportunity for teachers, parents and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.
e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

In the event any parent, pupil or teacher is interested in further information concerning alternative schools, the county superintendent of schools, the administrative office of this district, and the principal’s office at each school has copies of the law available for your information. This law particularly authorizes interested persons to request the governing board of the District to establish alternative school programs in each district. (Education Code Section 58501)

INDEPENDENT STUDY OPTION
East Side Union High School District’s Independent Study Option, established in 1981, provides contract Independent Study for students who desire a high school education but are not able to attend a traditional high school. The students stay enrolled in their home school. Young parents without child care, full time working students, students with unique physical or educational conditions and others are receiving a quality education through Independent Study.

Services and Curriculum
The teaching staff are responsible for presenting more than 40 Board approved courses. District approved textbooks are used exclusively: advanced math, foreign language, advanced lab sciences, performing arts and physical education. Students have the option to take these courses through the community college system or community based organizations, both public and private.

Student Options and Responsibilities
Independent Study students are subject to the same standards of behavior and are eligible for the same services as the comprehensive students. Many use the high school libraries, participate on interscholastic teams, attend ROP/CCOC, are on work experience, and attend social and cultural events sponsored by the comprehensive school.

Pre-requisites
1. Students need to be referred by their home school.
2. Student must demonstrate a reading level ability of at least 7th grade on a standardized reading test administered during the ISP enrollment process.

INDIVIDUALIZED HOME AND HOSPITAL INSTRUCTION
A student who is temporarily disabled and will be unable to attend school for a period in excess of two weeks may receive individualized instruction at home up to one hour per school day. Please call the school for a full description of the program and criteria for receiving such instruction.

A student who is placed in a hospital or other residential health facility will be provided educational services by the school district in whose attendance area the facility is located. Parents are responsible for notifying the appropriate school district of the need for such educational services. (Education Code Section 48206.3)
Silicon Valley Career Technical Education (SVCTE)

Overview
Students have the opportunity to attend Silicon Valley Career Technical Education (SVCTE) when they are in their junior and senior years. SVCTE is an extensive, proactive career training facility that offers students a chance to explore more than 50 specialty areas from eleven major career occupations while receiving high school and college credits. SVCTE’s campus is located on 26 acres in south San Jose at 760 Hillsdale Avenue.

Students pay no fees while attending SVCTE. Students are bussed from their home high school daily to SVCTE for instruction. Students can select either morning classes or afternoon classes, depending on their home school schedule. The classes offered at SVCTE require up-to-date, well-equipped, specialized facilities not available at the home high school. Units of credits are determined and granted by the home school. Students successfully completing one year at SVCTE receive a minimum of 30 elective units that go towards graduation requirements. In addition, articulation agreements are in effect between SVCTE and Evergreen Valley Community College, San Jose City College, West Valley Community College, De Anza Community College and Mission Community College. Students are able to attain advanced standing or college credits for their SVCTE courses if they complete two semesters in the SVCTE program with a grade of “B” or better.

Parents and students are invited to tour SVCTE at any time. This can be arranged through the home high school or directly by contacting SVCTE at 408.723.6400. For more information or to enroll, please contact your home high school guidance counselor.
A-G and Graduation Requirements

The Subject Requirement, more commonly referred to as the "A-G" subject requirements, is one of three requirements needed to enter UC as a freshman. Specifically, students must complete a pattern of 15 college-preparatory courses drawn from the areas of History/Social Science, English, Math, Lab Science, a language other than English, the Visual and Performing Arts and the college-preparatory elective.

Making our schools the most student-centered and innovative academic, athletic, cultural and career-preparatory centers of learning in our community

The Board and staff of East Side Union High School District are committed to improving our schools, helping teachers change the way they teach, and helping students change how they learn and demonstrate their learning. We are committed to giving our students the tools and skills to thrive in the global economy and to be life-long learners who can successfully adapt—and contribute—to society’s changes.

The Board of Trustees have ratified a new Strategic Plan, requiring that every student graduates prepared for college and career, empowered with the tools to thrive in a global society.

A-G Requirements: Taking steps to close the opportunity gap with access to higher-level course work

In November 2019, the East Side Union High School District Board of Trustees approved a measure to make the A-G sequence of courses for UC/CSU admission the default curriculum for all students.

District Accountability & Goals:
1. Improve graduation rate
2. Decrease dropout rate
3. Improve A-G completion rate
4. Develop College & Career Readiness Indicators (SCAs) - Critical Thinking, Communication, Collaboration, Creativity, and Civic Engagement
5. Decrease the Achievement Gaps as defined in 1-3 and other indicators, such as suspension and expulsion rates.
Alignment with A-G

The UC system labels each subject area or requirement with a letter to easily identify the different course requirements. The chart below shows how the ESUHSD Graduation Requirements align with the A-G requirements.

<table>
<thead>
<tr>

Each semester of a course with a passing grade is worth 5 credits.

Students who complete the ESUHSD graduation requirements with a “C” or better in Social Science satisfy both the “A” and “G” requirements for UC.

Students must also pass the California's High School Exit Exam (CAHSEE) to graduate from ESUHSD.

There are variations between UC and CSU A-G Requirements. Students should consult with their counselor about the specific colleges they wish to attend.

Board Resolution

For the 2013-2014 school year and beyond, the default placement for all 9th and 10th graders will be a College (A-G) and/or career-preparatory curriculum. Both Individual Education Plan (IEP) and the EL Master Plan will continue to be honored for student placement and success.

Passing Grades

For a course to be counted towards the A-G requirements, UC and CSU require that students earn a grade of C or higher.

Eligibility for College

Parents and students should be aware that completion of the A-G requirements does not guarantee admission to a university. A student’s grade point average and test scores will also be considered. In order to be competitive, students should plan to take higher levels of courses that exceed the A-G requirements. Students should consult their counselor for guidance in this area.

California Assessment of Student Performance and Progress (CAASPP)

Signed into law on October 2, 2013, Assembly Bill 484 launched a new student testing system for California’s schools, now called the California Assessment of Student Performance and Progress (CAASPP). The CAASPP system is based on the State’s new California Common Core State Standards (CA CCSS) for English Language Arts (ELA) and mathematics, adopted by the State Board of Education in 2010. This new system replaces the Standardized Testing and Reporting (STAR) Program that was based on 1997 standards. The primary goal of the new statewide testing program is to better prepare all students for college and careers in the twenty first century. Computer-based assessments, developed through the Smarter Balanced Assessment Consortium, form the cornerstone for CAASPP. All eleventh grade students take the new exams. For our severely disabled students, an alternative exam is available. In addition, 10th graders take a Life Science exam.

California Education Code states that parents/guardians can submit a written request to the principal of their student’s school if they do not wish to have their student take any or all parts of the State’s CAASPP tests. ESUHSD teachers and schools support students to do well on the tests and help them learn test-taking skills that will enable them to be successful throughout their school career and beyond. The 11th grade CAASPP assessments are part of the California college Early Assessment Program and count as a college placement test for English and Math. Students who score a 4 on the Math and English 11th grade CAASPP tests are college ready and may enter directly into college level Math and English upon college admission. We encourage parents to contact their child’s teacher or principal with any concerns they may have about the tests before they request that their student be excluded from taking the test(s).

Additional State Testing

• All 9th graders take the Physical Fitness test in early spring, which assesses student physical wellness. Students not passing the Physical Fitness test in the 9th grade must take physical education (Ed. Code) in the 10th grade and retake the Physical Fitness test.
• The English proficiency of all English Language Learners (ELLs) is assessed using the California English Language Development Test (CELDT). A portion of the CELDT is administered, if possible, during the summer. The rest of the exam is given during October of each year.

District Measurement of Student Growth

The District uses the following instruments to measure student growth:

9th grade Mathematics - Each ninth grader is tested in mathematics using a “Mock CAHSEE” in the fall and spring. The results are used to identify areas of instructional need to prepare and identify students who will need additional instruction.

9th grade Reading – all ninth graders are administered the “DRP” reading test. Results allow teachers to focus their instruction on the skills needed for a student to improve his or her level of academic achievement. A comparison of the fall and spring scores determines whether the student is making progress. Results also help target students for intensive reading instruction.

Benchmark Assessments – Common District benchmark assessments currently are given in ELD levels 1, 2, and 3. With the development and implementation of new standards, all other content areas are developing new assessments in order to provide information on student progress district wide, assist in course alignment, and monitor the progress of students based on district curriculum.

Intervention Progress Monitoring – The District offers several programs at each school which help to support and accelerate the learning of students who experience difficulties performing at expected grade level standards. These programs have assessments included within the curriculum which target areas of needed instruction and monitor the student growth on a regular basis.
College Test Dates

PSAT—Preliminary Scholastic Aptitude Test and National Merit Scholarship Qualifying Test
This test will be given October 15 and 19, 2016 for sophomores and juniors. It gives students a preview of the types of questions that will appear on the SAT Reasoning Test—Scholastic Aptitude Test. 11th grade scores from this test are used to determine candidates for the National Merit Scholarships.

SAT Reasoning Test (Scholastic Aptitude Test)
Many four year colleges require students to take the SAT Reasoning Test. The SAT Reasoning Test is given several times a year. The schedule for 2016-17 is listed below. It tests students’ knowledge of subjects that are necessary for college success: reading, writing, and mathematics. Students are encouraged to take the test in their junior and senior year.

### NOTES:
- As is customary, Sunday administrations will occur the day after each Saturday for students who cannot test on Saturday for religious reasons.
- The Language Tests with Listening are offered in November only. ELPT is offered November and January at some test centers.

SAT Subject Tests
The SAT Subject Tests are subject specific tests. They are one-hour tests. Many universities use these tests to determine subject mastering and placement.

The University of California requires the ACT Assessment plus writing or the SAT Reasoning Test. Additionally, UC requires two SAT Subject Tests. These must be in two different areas, chosen from the following: English, history and social studies, mathematics (level 2 only), science or language other than English.

*The SAT Reasoning Test and SAT Subject Tests cannot be taken on the same day.*
ACT (ACT Assessment)
The ACT is required by certain four year colleges. Questions cover the following
subjects areas: English, mathematics, reading and science. The Universities of
California and the California State Universities will accept the ACT in place of the
SAT Reasoning Test. For more information: [www.act.org](http://www.act.org) or call 319.337.1827.

SAFE SCHOOLS AND DISCIPLINE

Emergencies

All staff and students are trained in appropriate responses to fires, earthquakes and lockdown situations. Multiple drills are held each year.

• During a lockdown **DO NOT GO TO THE SCHOOL SITE**. Parents WILL NOT be allowed to pick up students. It is possible that by going to the school site the parent would place themselves and others in danger.

• Parents cannot and will not be allowed on campus during a lockdown or shelter in place (Code Red/Code Blue) situation.

The automatic phone system will call students’ homes to inform their families about the current situation, what time students will be dismissed, etc.

Parents should stay at home and monitor the situation through phone and internet contact. During a Lockdown (Code Red) or a Shelter in Place (Code Blue) your child is safely locked in a classroom, away from any danger on campus.

Therefore, the District recognizes the need for referrals to services for appropriate assessment and treatment.

25.1 Statement of Intent:
The intent of a Student Support Services Program (SSSP) is to provide a comprehensive program which emphasizes prevention, education, intervention, and referral support services as positive alternatives to existing disciplinary measures, as well as to meet the mental and socio-emotional needs of students. The intent is to ensure the provision of adequate human and material resources, within the scope and ability of the East Side Union High School District, to support the efforts of parents and staff in the instruction, intervention, prevention and referral of identified students.

25.3 Prevention/Education:

25.3.1 Current curriculum in use will continue to be offered to support the District’s philosophy regarding the use of drugs, alcohol, tobacco, suicide, bullying prevention and intervention, healthy relationships, teen dating violence and overall wellness. 25.3.2 Current curriculum in use will continue to be offered with all reasonable efforts to keep the facts and information current and up to date.

25.3.4 Information for support groups and/or peer counseling will be available for any student wishing to participate.

25.3.5 The responsibility for operating a SSSP will rest with each site principal or his/her designee.

Appropriate staff members will do an initial screening.

25.4.10.1 Refusal by parents to seek treatment for a substance-abusing dependent child as confirmed by an appropriate qualified agency will result in a report to the Department of Social Services for suspected child abuse/neglect under P.C. 270 and 11172 (a, b).

25.5 Aftercare:

25.5.1 The absence of any student for treatment of substance abuse dependency will be considered an illness, as currently stated in the District Attendance Policy (#5113).

25.5.2 The Board recognizes that these students need support in maintaining behavioral and life style changes and empowering them to make new decisions about their own behavior.

25.5.3 Students returning to school following in-patient treatment or removal from school by the judicial system will have a high priority for placement in an appropriate SSSP.

25.5.4 The school staff will be aware of the nature of substance abuse problems or other treatment and the principles of recovery and relapse.

**PURPOSE**

All decisions related to student behavior are guided by the Board’s educational objectives to teach responsibility and respect for cultural and ideological differences and by the Board’s commitment to create safe, orderly and inviting schools. Student behavior policies are provided in order to establish expected standards of student behavior, principles to be followed in managing student behavior, consequences for anti-social behavior or drug/alcohol policy violations; and required procedures for addressing misbehavior.

**PRINCIPLES**

The reasons for managing student behavior are: to create an orderly environment where students can learn; to teach expected standards of behavior; to help students learn to accept the consequences of their behavior; and to provide students with the opportunity to develop self-control. The following principles apply in managing student behavior:

1. Student behavior management strategies should compliment other efforts to create a safe, orderly and inviting environment.

2. Responsibility, integrity, civility and other standards of behavior should be integrated into the curriculum.

3. Disruptive behavior in the classroom will not be tolerated.

4. Consequences for unacceptable behavior should help a student learn to comply with rules, to be obedient at a minimum, and when able, to learn to accept responsibility and develop self-control.

5. When feasible, consequences for unacceptable behavior should take into account differences in how individual students respond to discipline strategies.
