DISTRICT OVERVIEW

The East Side Union High School District (ESUHSD), established in 1950, serves over 22,000 students in grades 9-12 at 11 comprehensive high schools, 7 alternative education sites, 7 child development centers and 12 independent charter schools. The District offers a safe and innovative learning environment, award-winning athletic programs, extracurricular activities, robust Advanced Placement courses and a career technical education program through its magnet programs, CA Partnership Academies, and an ROP JPA.

List of ESUHSD schools:
- Eleven (11) comprehensive high schools: Andrew P. Hill, Evergreen Valley, Independence, James Lick, Mt. Pleasant, Oak Grove, Piedmont Hills, Santa Teresa, Silver Creek, W.C. Overfelt, Yerba Buena
- One (1) continuation high school: Foothill
- Three (3) alternative high schools: Apollo, Phoenix, Pegasus
- Three (3) schools of choice: Accel, Calero, and College Connection Academy

Our classrooms are equipped with state-of-the-art technology, including laptops, Apple TVs, internet access, and during the 2017-18 school year, the District deployed a district-wide network to provide free WiFi to low-income students and their families.

Our District collaborates directly with hi-tech Silicon Valley companies, offering our students real-world experiences and 21st century skills through curriculum, internships, field trips and mentoring opportunities. Rich in racial and cultural diversity, our student population is comprised of 46.3% Hispanic, 41.9% Asian, 6.5% White, 2.8% African American, 1.7% multiple, 0.6% Pacific Islander, and 0.2% Native American. More than 40 native languages are spoken by East Side students. There are 3,760 students in our English Language Learners Program. An average of 76% of our students attend college each year.

East Side employs 1,208 certificated and 634 classified staff members to support students and their families. Our Adult Education program serves an additional 6,500 students and employs 100 adult education teachers and staff.

There are seven elementary school districts that feed into ESUHSD. The District has strong partnerships with these feeders, as well as community colleges and 4-year universities in the area. These partnerships include Accel Middle College, College Connection Academy Program, and the Spartan East Side Promise.
- The Accel Middle College program is located on the Evergreen Valley College campus. Students in this program can take college courses while they are completing their high school graduation requirements. Students can earn up to one year of college credit.
- The College Connection Academy Program is a grade 7 – 13 program created in cooperation with Franklin-Mckinley School District and Evergreen Valley College with support from San Jose State University. Our feeder middle school students attend classes on our high school campus and our high school students take college courses as early as 11th grade. Students graduate with as many as 1-2 years of college credit.
- The Spartan East Side Promise provides a pathway to guaranteed general admission to San Jose State University by clearly specifying admission requirements and actively sharing this information with students and families.

If your child is absent or late, please contact their school to provide them with a specific reason for the absence.

All absences must be verified in accordance with Board Policy 5113, Education Code Section 48205, and California Code Regulation Title 5 Section 6.

A student shall be excused from school for the following absences:
1. Due to illness
2. Due to quarantine under the direction of a county or city health officer.
3. Medical, dental, optometric, or chiropractic services rendered.

Truancy and Chronic Absenteeism

Attending school on time, all day and every day is critical to school success. The District, partnering with parents, has an essential role in the prevention and intervention of truancy and chronic absenteeism. A student is classified as a “truant” after three or more unexcused absences of 30 minutes or more on three separate occasions (Education Code Section 48260). A student is classified a “chronic absentee” when he/she has missed 10% or more of the school days enrolled (Education Code 60901 (c)(1)). To ensure parents and students understand the necessity of on time, all day and every day school attendance, the District has comprehensive, tiered prevention and intervention efforts to promote and improve attendance.

Any pupil is deemed a “habitual truant” who has been reported as a truant three (3) or more times per school year and an appropriate district officer or employee has made a conscientious effort to hold at least one conference with the parent or guardian of the pupil and the pupil himself/herself [Education Code 48262].

Any pupil who is deemed a habitual truant or is irregular in attendance in school or is habitually insubordinate or disorderly during attendance at school may be referred to a School Attendance Review Board (SARB). The SARB Chairperson or designee will send a notice to parents/guardians, informing them of the date, time and location of the SARB Hearing. The notice shall indicate that the pupil and parents/guardians of the pupil will be required to meet with the School Attendance Review Board. In the event that any parent, guardian, student, or other person continually and willfully fails to respond to directives of the
SARB or services provided, the School Attendance Review Board may contact the district attorney to notify the parents or guardians of each pupil concerned, that they may be subject to prosecution [Education Code 48263.5].

The District partners with the Santa Clara County Office of the District Attorney to provide support to truant students and their families.

**Notification of Truancy Letter**
An automated truancy letter will be mailed to notify parents/guardians of students between the ages of six and 18 years when their child has accumulated three or more unexcused absences, early leaves and/or tardies of 30 minutes or more in the school year for which a valid excuse was not provided. Absences that meet this criterion will be counted toward truancy classification. Pursuant to Education Code 48260.5, upon a pupil’s initial classification as a truant, the school district shall notify the parents/guardians, by mail or other reasonable means of the following:

- The pupil is truant.
- That the parent or guardian is obligated to compel the attendance of the pupil at school.
- That parents or guardians who fail to meet these obligations may be guilty of an infraction and subject to prosecution.
- That alternative educational programs are available in the District.
- That the parent or guardian has the right to meet with appropriate school personnel to discuss solutions to the pupil’s truancy.
- That the pupil may be subject to prosecution.
- That the pupil may be subject to suspension, restriction or delay of the pupil’s driving privilege.
- That it is recommended that the parent or guardian accompany the pupil to school and attend classes with the pupil for one day.

If you feel absences reported are in an error, please contact the school. Corrections and updates to attendance data and records are not allowed after the attendance period has closed.

**Attendance Review Conferences**
Attendance Review Conferences (ARCs) are coordinated by each school site and provide parents and students with an opportunity to build and strengthen relationships directly with key staff (e.g., Associate Principal, Advisor, Social Worker, Parent and Community Involvement Specialist, Academic Counselor, Student Support Specialist, etc.), as well as discuss individual attendance concerns and site-based services and supports.

**School Attendance Review Board**
School Attendance Review Board (SARB) is coordinated by the District Office and has the authority to enforce compulsory education laws in an effort to divert students with school attendance or behavior problems from the juvenile justice system SARB will conduct hearings and issue formal directives in response the specific facts of each referral. The directives may include specific referrals to community services or agencies, as well as requiring that the student and/or parent or guardian provide satisfactory evidence of participation in the community services or agencies. The SARB may refer cases to the District Attorney or Probation if the pupil or the parents or guardians of the pupil, or both, have failed to respond to directives or to services provided. The SARB may also assign students to a different educational placement.

**Short Term Independent Study**
Short Term Independent Student (STIS) is an alternative education strategy, not a separate program, for students who are unable to attend school for an extended period of time. The request for STIS must be approved by an Administrator. STIS may be approved for at least 5 days, but not more than 15 days. If approved, its purpose is to allow students to remain current with regular course work while away from school.

Health Insurance

Need Insurance or Health Care Information?

The District does not provide medical insurance coverage for school accidents. This means that each family is responsible for their medical bills if a student gets hurt during school activities. In accordance with Education Code Section 49472, the District is making available a low cost medical/dental insurance program through Pacific Educator’s Inc. More information is available on our website at http://www.esuhsd.org/Community/BusinessFinance/Student-Insurance/index.html.

An insurance brochure, showing the coverage options, is available at each school site. The Student Health Care and “High Option” 24-Hour Accident plans are especially recommended for those families with no other insurance because they provide the most help when injuries occur. Student Health Care covers illness as well as injury, 24 hours a day. If your family does have other health coverage, student insurance may also be used to help pay those charges not covered by your family insurance.

A School Based Clinic is located at W. C. Overfelt. This Health Clinic provides primary medical care for students at this school. Hours are from 8am-4:30pm Monday through Friday.

RESIDENCY REQUIREMENTS FOR SCHOOL ATTENDANCE

(Education Code Section 48204)

California Education Code Section 48200 requires that a student enroll in the school district in which the student’s parent/guardian is a resident. A student shall also be deemed to have complied with the residency requirements for school attendance in a school district, if he or she is any of the following:

1. (A) A pupil placed within the boundaries of that school district in a regularly established licensed children’s institution or a licensed foster home as defined in Section 56155.5, or a family home pursuant to a commitment or placement under Chapter 2 (commencing with Section 200) of Part 1 of Division 2 of the Welfare and Institutions Code.

   (B) An agency placing a pupil in a home or institution described in subparagraph (A) shall provide evidence to the school that the placement or commitment is pursuant to law.

2. A pupil who is a foster child who remains in his or her school of origin pursuant to subdivisions (f) and (g) of Section 48853.5.

3. A pupil for whom interdistrict attendance has been approved pursuant to Chapter 5 (commencing with Section 46600) of Part 26.

4. A pupil whose residence is located within the boundaries of that school district and whose parent or legal guardian is relieved of responsibility, control, and authority through emancipation.

5. A pupil who lives in the home of a caregiving adult that is located within the boundaries of that school district. Execution of an affidavit under penalty of perjury pursuant to Part 1.5 (commencing with Section 6550) of Division 11 of the Family Code by the caregiving adult is a sufficient basis for a determination that the pupil lives in the home of the caregiver, unless the school district determines from actual facts that the pupil is not living in the home of the caregiver.

6. A pupil residing in a state hospital located within the boundaries of that school district.

7. A pupil whose parent or legal guardian resides outside of the boundaries of that school district but is employed and lives with the pupil at the place of his or her employment within the boundaries of the school district for a minimum of three days during the school week.

   (b) (1) A school district may deem a pupil to have complied with the residency requirements for school attendance in the school district if at least one parent or the legal guardian of the pupil is physically employed within the boundaries of that school district for a minimum of 10 hours during the school week.

   (2) This subdivision does not require the school district within which at least one parent or the legal guardian of a pupil is employed to admit the pupil to its schools. A school district shall not, however, refuse to admit a pupil under this subdivision on the basis, except as expressly provided in this subdivision, of race, ethnicity, sex, parental income, scholastic achievement, or any other arbitrary consideration.

   (3) The school district in which the residency of either the parents or the legal guardian of the pupil is established, or the school district to which the pupil is to be transferred under this subdivision, may prohibit the transfer of the pupil under this subdivision if the governing board of the school district determines that the transfer would negatively impact the court-ordered or voluntary desegregation plan of the school district.

   (4) The school district to which the pupil is to be transferred under this subdivision may prohibit the transfer of the pupil if the school district determines that the additional cost of educating the pupil would exceed the amount of additional state aid received as a result of the transfer.

   (5) The governing board of a school district that prohibits the transfer of a pupil pursuant to paragraph (2), (3), or (4) is encouraged to identify, and communicate in writing to the parents or the legal guardian of the pupil, the specific reasons for that determination and is encouraged to ensure that the determination, and the specific reasons for the determination, are accurately recorded in the minutes of the board meeting in which the determination was made.

   (6) The average daily attendance for pupils admitted pursuant to this subdivision is calculated pursuant to Section 46607.

   (7) Unless approved by the sending school district, this subdivision does not authorize a net transfer of pupils out of a school district, calculated as the difference between the number of pupils exiting the school district and the number of pupils entering the school district, in a fiscal year in excess of the following amounts:

   (A) For a school district with an average daily attendance for that fiscal year of less than 501 pupils, 5 percent of the average daily attendance of the school district.

   (B) For a school district with an average daily attendance for that fiscal year of 501 pupils or more, but less than 2,501 pupils, 3 percent of the average daily attendance of the school district or 25 pupils, whichever amount is greater.
(C) For a school district with an average daily attendance of 2,501 pupils or more, 1 percent of the average daily attendance of the school district or 75 pupils, whichever amount is greater.

(8) Once a pupil is deemed to have complied with the residency requirements for school attendance pursuant to this subdivision and is enrolled in a school in a school district the boundaries of which include the location where at least one parent or the legal guardian of a pupil is physically employed, the pupil does not have to reapply in the next school year to attend a school within that school district and the governing board of the school district shall allow the pupil to attend school through grade 12 in that school district if the parent or legal guardian so chooses and if at least one parent or the legal guardian of the pupil continues to be physically employed by an employer situated within the attendance boundaries of the school district, subject to paragraphs (2) to (7), inclusive.

TRANSFER OPTIONS
Parents/guardians may submit a request for their student to attend a school in a different attendance area than the area where they live. Parents/guardians may request a transfer to a school within the East Side Union High School District (intradistrict) or in a different district (interdistrict).

Open Enrollment (Intradistrict Transfers)
The parents/guardians of any student who resides within district boundaries may apply to enroll their child in any district school, regardless of the location of residence within the district. The request form may be obtained from the student’s school of residence and the completed form must be submitted to the school principal. An intradistrict transfer must be approved by both schools involved in the transfer.

Priority for attendance outside a student’s attendance area shall be given as follows:
1. If a district school receiving Title I funds is identified for program improvement, corrective action or restructuring, all students enrolled in that school shall be provided an option to transfer to another district school or charter school.
2. If while on school grounds a student becomes a victim of a violent criminal offense, as defined by the State Board of Education, or attends a school designated by the California Department of Education as persistently dangerous, he/she shall be provided an option to transfer to another district school or charter school.
3. The Superintendent or designee may approve a student’s transfer to a district school that is at capacity and otherwise closed to transfers upon finding that special circumstances exist that might be harmful or dangerous to the student in the current attendance area, including, but not limited to, threats of bodily harm or threats to the emotional stability of the student.
4. Priority may be given to siblings of students already in attendance in that school.
5. Priority shall be given to students whose parent/guardian is assigned to that school as his/her primary place of employment.

For all other applications for enrollment outside a school’s attendance area, the Superintendent or designee shall use a random, unbiased selection process to determine who shall be admitted whenever a school receives admission requests that are in excess of the school’s capacity. Except as required for transfers out of Title I Program Improvement schools, the District shall not be obligated to provide transportation for students who attend school outside their attendance area.

To appeal a denial, contact the administration at your child’s school of residence. Please see Board Policy 5116.1.

Interdistrict Transfers
The form to request a transfer to a different school district may be obtained from the District and is submitted to the office of Student Services. Both districts must approve the request. Transportation to the new school is the responsibility of the parent/guardian.

Students with Temporary Disabilities
A student with a temporary disability who is in a hospital or other residential health facility, excluding a state hospital, which is located outside the District, the student may be eligible to attend the school district in which the hospital is located. If this situation should arise, it is the primary responsibility of the parent of the pupil to notify both the district where you reside and the district where the hospital is located so that individualized instruction, if possible, can be provided.

OPPORTUNITIES FOR PARENT INVOLVEMENT

Parent Involvement in School Committees

Every school in the district is committed to involving parents in the educational process. Numerous opportunities are available at each site. Some examples include:

- **School Site Council**—A committee of teachers, counselors, parents, students and administrators who are responsible for planning and sustaining the School Improvement Program and the School Safety Plan per SB 187.

- **School Advisory Committee and English Learners Advisory Committee**—These two committees include parents, staff and community members who advise the school on how best to serve non-English speakers and students scoring below grade level in math and reading.

- **Special Committees**—Advisory and information parent and staff committees who meet regularly to plan ways to assist and support magnet and academy program students, non-English speaking students and underachieving students.

- **Safety Council**—Each school has a group that meets to review, strengthen and monitor the implementation of the school’s Safety Plan. Contact your school’s Associate Principal for more information.

- **Booster Clubs**—These clubs usually provide support and direction to extracurricular activities on the campus.

- **District Advisory Committee/District English Learners Advisory Committee (DAC/DELAC)**
  A group of parents, staff and community members, by elected School Site Committees, to provide on-going advice to the Superintendent and Board of Trustees:

b) “Alternative education project” includes, but is not limited to, the use of video recordings, models, films, books and computers, which would provide an alternate avenue for obtaining the knowledge, information, or experience required by the course of study in question. “Alternative education project” also includes “alternative tests.”

b) If the pupil chooses to refrain from participation in an education project involving the harmful or destructive use of animals, and if the teacher believes that an adequate alternative education project is possible, then the teacher may work with the pupil to develop and agree upon an alternate education project for the purpose of providing the pupil an alternate avenue for obtaining the knowledge, information, or experience required by the course of study in question.

c) The alternative education project shall require a comparable time and effort investment by the pupil. It shall not, as a means of penalizing the pupil, be more arduous than the original education project.

d) The pupil shall not be discriminated against based upon his or her decision to exercise his or her rights pursuant to this chapter.

e) Pupils choosing an alternative educational project shall pass all examinations of the respective course of study in order to receive credit for that course of study. However, if tests require the harmful or destructive use of animals, a pupil may, similarly seek alternative tests pursuant to this chapter.

f) A pupil’s objection to participating in an educational project pursuant to this section shall be substantiated by a note from his or her parent/guardian.

32255.3

a) A teacher’s decision in determining if a pupil may pursue an alternative educational project or be excused from the project shall not be arbitrary or capricious.

b) Nothing in this chapter shall prevent any pupil from pursuing the grievance procedures in existing law.

GUIDE FOR GRADING (POLICY #6155.1)

CRITERIA FOR GRADES
The teacher will teach the course objectives and the grade will reflect the degree to which the student has mastered them. Course objectives include those found in the course description and others determined by the teacher. When the student enrolls, the teacher should give, in writing, the course description, major objectives and the criteria the teacher will use to determine grades.
During each quarter the teacher should notify the parent with a progress report if a student is receiving a “D” or an “F” in the course. Information on opportunities for assistance will be included in the progress report.

RANGE OF GRADES
Grades are intended to reflect the student’s mastery of course content standards, objectives, and other objectives found in individual education plans. The attainment of an “A” grade shall be possible for every student in every class. The range of grades will reflect a student’s mastery of course content standards and objectives as follows:
A  The student has attained excellent mastery of objectives.
B  The student has attained above average mastery of objectives.
C  The student has attained satisfactory mastery of objectives.
D  The student has attained minimal mastery of objectives.
F  The student has not attained minimal mastery of course objectives.
I  (Incomplete) The student has attained only partial mastery of objectives due to extenuating circumstances. A designated grade “A” to “F” must accompany the INC. The student must satisfactorily complete objectives within twenty school days or the incomplete will revert to the designated grade.
P or NP  (Passed or Not Passed) The student assistant/aide will receive a grade of passed or not passed.
AUD  (Audit) A student has not attained minimal mastery of objectives in summer school.
WD  (Withdrawal) A student has withdrawn from summer school for any reason.

The range of grades to compute GPA will be based on a four-point system (A-4.0 to F-0). INC, P, NP, AUD and WD will not be used for GPA. Semester grades are used to compute GPA. Grades issued at the end of six weeks are progress grades only.

CLASSROOM BEHAVIOR
Course objectives should include learning and demonstrating appropriate student behavior. If there are no learning objectives related to student behavior, behavior that interferes with classroom instruction and learning will become a disciplinary matter and will not affect the grade.

PARTICIPATION
1. Regular attendance in classes is an important aspect of the educational process. The student who is absent from class for any reason has missed important instruction and interaction that cannot be gained in any other way.
2. A portion of the grade may be based on the student’s classroom participation. Participation generally includes oral participation, board work, laboratory work, productive use of time, preparedness (bringing materials to class) and interaction (student to student, student to teacher).
3. When classroom participation is to be used as a portion of the grade, the teacher must first inform the student how participation will be graded.
4. Grading of classroom participation may be based solely on the teacher’s observation of student performance.
5. Classroom participation must be recorded if it is to be a component of the final grade.

SUMMER SCHOOL
The range of actual letter marks in summer school will run from “A” to “D”. If a student fails a class, he/she will have AUD (audit) marked on his/her transcript. If he/she withdraws for any reason, he/she will be given a WD (withdrawn) on his/her transcript. In cases where AUD or WD are used, no credits are assigned or given; therefore, the summer school course shall not be used for GPA purposes.

UNEXCUSED ABSENCES
When an unexcused absence occurs, the student and parent/guardian shall be notified and informed of the District’s policy regarding excessive unexcused absences. The student and parent/guardian shall have a reasonable opportunity to explain the absence. (Education Code Section 49067)

If the absence is not verified as excusable within ten days, it shall be recorded as unverified. The person receiving any explanation of the absence by the parent/guardian shall make a record of this explanation and the date when it was given.

If a student receives a failing grade because of unexcused absences, school records shall specify that the grade was given because of excessive unexcused absences. (Education Code Section 49067) (cf 5113-Absences and Excuses)
WITHDRAWAL FROM CLASSES
Students may drop courses from their schedules up to the end of the seventeenth day of class in the first semester and up to the end of the fifth day of class in the second semester. After that time, a student will be held responsible for completing the remainder of the course work. A student who drops a course after these deadlines shall receive an F grade on his/her permanent record unless otherwise determined by the principal.

EXAMINATIONS
It is the intent of this regulation to delineate procedures for providing student and parents appropriate, timely feedback on examination performance through review and analysis of problem areas, whether through phone calls, meetings or correspondence. It is also the intent of this regulation to strengthen home to school communication and increase avenues of meaningful parent participation in their student’s education.

DISSEMINATION OF EXAMINATION
In promoting parent/student interest, in obtaining examination feedback information, teachers will inform parents of class test return procedures through:
1. Green sheets, and/or
2. Class rules and procedures bulletins.
The above is to be disseminated to each student and/or parent within the first weeks of the start of class. A copy should be retained by the student or parent.

EXAMINATION RETURN PROCEDURE
Teachers recognize the importance of teacher/student/parent review of any and all forms of examinations in a timely manner; therefore examinations shall be:
1. Returned to all students within the guideline of seven school days with the exception of essay exams, in which case additional return time would be necessary.
2. Reviewed as thoroughly as possible in class.
3. Made available for parent/home review and use.
4. Secure exams returned to parents/guardians will require a signature from the parent pledging to protect the confidentiality of the exams.

SECURE EXAMINATIONS THAT MAY BE EXEMPTED
In order to promote maximum information and feedback on examination performance, teachers are encouraged to eliminate after-test security whenever possible.

TYPES OF EXAMS THAT MAY BE EXEMPTED
1. District standardized tests
2. Exams where the test medium is impractical to send home
3. Final examinations
4. State/national achievement tests
5. Unit exams covering multiple chapters and/or concepts

ALTERNATIVES TO RETURNING OF SECURE EXAMS
1. Review of similar test
2. Return of analysis of problems most frequently missed by students.
3. Return of only the problems missed
4. Parent/teacher conference where exam is reviewed but not issued to the parent for home use.
Teachers are encouraged to use any of the above in providing examination feedback on secure exams.

EXAM RETURN APPEAL PROCESS
In those cases where a parent/teacher conflict arises from test return procedures and/or practices, and where a resolution cannot be reached, the following appeal procedures shall be used:

1. First Level
The first level is a referral to the local school site council for a timely review and resolution. A decision will be reached and communicated to the parties within a guideline of 30 days or as soon as possible.

2. Second Level
If either party is dissatisfied with the resolution at Level 1, he/she may appeal to a district-level panel represented by equal constituencies of school/district staff/students, and parents/guardians. The Associate Superintendent of Educational Services or designee shall facilitate the panel.

PICTURES
It is the policy of the East Side Union High School District to create student photos/images and written information for ID badges, the student information system and yearbook publications which may be transmitted in print and electronic form for school and school district uses. Throughout the school year, staff of the East Side Union High School District or members of the media may come to our classrooms or to school events in order to photograph students for District publications and displays, website, news stories or similar purposes. If you object to having your child televised, voice recorded, video recorded, or photographed, please sign the Refusal for Photographs, Videos and Other Recordings form in this handbook and return the form to your school office.

INTERNET ACCEPTABLE USE POLICY
The East Side Union High School District is aggressively pursuing placing more computers in classrooms for students to access. Understanding and using technology will be the key for jobs in the 21st century and the District wants to ensure that its students are competitive candidates.

The Information Superhighway can be an incredible resource for students. From school they can travel all over the world to gather information. But as they travel on the electronic highway, maps to find information and rules to keep traveling safe become vital to successfully completing the journey.

The East Side Union High School District Network and the INTERNET represent powerful educational resources that will allow students to find information in this worldwide electronic network. Students can connect to businesses, major universities, national libraries, other schools and other students around the world. The INTERNET is not without its share of controversy. It is important that students and parents have an understanding of INTERNET issues prior to logging on to the network.

At the beginning of each school year, prior to using networking services, students and parents need to sign an Acceptable Use Policy. Just as students learn social codes and behavior that are acceptable at school, they need to learn the correct procedures and rules for using the network of information services. All students are expected to obey the guidelines. If they break any of these rules, they will not be allowed to continue to use the computer network. The signed policy agreement becomes the permission slip to take trips on the information highway.

- You may examine some of the questionnaires in the District’s Student Services Office, at your school’s Student Support Service Center or at the websites listed below:
  - District’s web-page www.esuhsd.org (select “Student Services”, then go to “Healthy Kids Report”)
  - The California Healthy Kids Survey (CHK) toll free at (888) 841-7536 or www.californiahealthykids.org then select “Surveys and Reports”. This survey may be given in our District on an annual basis.
  - California Student Survey (given every two years for the state’s “snap shot” overview of youth).
  - National Center for Disease Control Youth Risk Behavior Survey www.cdc.gov/HealthyYouth/yrbs/index.htm

How Do Schools Benefit? The data received from these surveys provides districts with information to meet several CDE (California Department of Education) requirements for schools to continue to receive Federal and State funding. For example:
- Required LEAP (Local Education Agency Plan) data is aligned with the CHK Survey.
- SDFSCA (Safe and Drug Free Schools Community Act) and TUPE (Tobacco Use Prevention Education) funding requirements are met by the surveys. Survey results are used in annual reports to show progress on goals and performance indicators.
- Federal Coordinated Compliance Reviews data requirements are met by the surveys.
- Distinguished School Applications and many other grant applications are strengthened by use of the survey data.

These surveys and others like the national Youth Risk Behavior Survey provide necessary data to help districts/schools/county health departments assure healthy, safe environments. Research has demonstrated that ensuring that students are safe, drug-free, healthy and resilient is central to improving academic performance and promoting positive youth development.

MANDATORY HIV / AIDS CURRICULUM

California state law requires that HIV/AIDS prevention education is taught in middle school and in high school. If comprehensive sexual health education is taught, the District shall follow state laws (California Education Code Section 51933). The District may not pick and choose topics to teach.

HIV/AIDS prevention instruction includes:

- Information on HIV/AIDS and how it affects the body.
- How HIV is and is not spread.
- Discussion of ways to lower the risk of HIV, including:
  - Sexual abstinence and the latest medical information on ways to prevent sexually transmitted HIV infection.
- Discussion of the public health issues related to HIV/AIDS.
- Places for HIV testing and medical care.
- Making good decisions and staying away from risky activities.
- Discussion about society’s views on HIV/AIDS, and people with HIV/AIDS.

You can examine instructional materials for this unit of instruction at the main office of your son or daughter’s high school. If you have questions, please see the teacher or principal. State law allows you to remove your student from comprehensive sexual health education or HIV/AIDS prevention education. If you do not want your student to participate in the comprehensive sexual health or HIV/AIDS prevention instructional program, please return the Lesson Withdrawal Form that follows this letter to your student’s biology course teacher by December 1.

The goal of a comprehensive sexual health education program is to help students learn the facts and to make good decisions now, and later in life.

ALTERNATIVE ACADEMIC PROGRAMS

NOTICE OF ALTERNATIVE SCHOOLS
California State law authorizes all school districts to provide for alternative schools. Section 58500 of the Education Code Section defines alternative school as a school or separate class group within a school which is operated in a manner designed to:

a) Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility and joy.
b) Recognize that the best learning takes place when the student learns because of his/her desire to learn.
c) Maintain a learning situation maximizing student self-motivation and encouraging the student in his/her own time to follow his/her own interests. These interests may be perceived by him/her totally and independently or may result in whole or in part from a presentation by his/her teachers of choices of learning projects.
d) Maximize the opportunity for teachers, parents and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.
e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

In the event any parent, pupil or teacher is interested in further information concerning alternative schools, the county superintendent of schools, the administrative office of this district, and the principal’s office at each school has copies of the law available for your information. This law particularly authorizes interested persons to request the governing board of the District to establish alternative school programs in each district. (Education Code Section 58501)

INDEPENDENT STUDY OPTION
East Side Union High School District's Independent Study Option, established in 1981, provides contract Independent Study for students who desire a high school education but are not able to attend a traditional high school. The students stay enrolled in their home school. Young parents without child care, full time working students, students with unique physical or educational conditions and others are receiving a quality education through Independent Study.

Services and Curriculum
The teaching staff are responsible for presenting more than 40 Board approved courses. District approved textbooks are used exclusively: advanced math, foreign language, advanced lab sciences, performing arts and physical education. Students have the option to take these courses through the community college system or community based organizations, both public and private.

Student Options and Responsibilities
Independent Study students are subject to the same standards of behavior and are eligible for the same services as the comprehensive students. Many use the high school libraries, participate on interscholastic teams, attend ROP/CCOC, are on work experience, and attend social and cultural events sponsored by the comprehensive school.

Pre-requisites
1. Students need to be referred by their home school.
2. Student must demonstrate a reading level ability of at least 7th grade on a standardized reading test administered during the ISP enrollment process.

INDIVIDUALIZED HOME AND HOSPITAL INSTRUCTION
A student who is temporarily disabled and will be unable to attend school for a period in excess of two weeks may receive individualized instruction at home up to one hour per school day. Please call the school for a full description of the program and criteria for receiving such instruction. A student who is placed in a hospital or other residential health facility will be provided educational services by the school district in whose attendance area the facility is located. Parents are responsible for notifying the appropriate school district of the need for such educational services. (Education Code Section 48206.3)
Overview
Students have the opportunity to attend Silicon Valley Career Technical Education (SVCTE) when they are in their junior and senior years. SVCTE is an extensive, proactive career training facility that offers students a chance to explore more than 50 specialty areas from eleven major career occupations while receiving high school and college credits. SVCTE’s campus is located on 26 acres in south San Jose at 760 Hillsdale Avenue.

Students pay no fees while attending SVCTE. Students are bussed from their home high school daily to SVCTE for instruction. Students can select either morning classes or afternoon classes, depending on their home school schedule. Students successfully completing one year at SVCTE receive a minimum of 30 elective units that go towards graduation requirements. In addition, articulation agreements are in effect between SVCTE and the following community colleges, Evergreen Valley, San Jose City, West Valley, De Anza and Mission. Students are able to attain advanced standing or college credits for their SVCTE courses if they complete two semesters in the SVCTE program with a grade of “B” or better.

SVCTE is currently offering classes in Automotive Technology, Business Information Systems, Communication Arts, Construction Technology, Cosmetology, Electronic Technology, Industrial Technology, Mechanical Maintenance, Hospitality, Health and Community Services. The Subject Requirement, more commonly referred to as the “A-G” subject requirements, is one of three requirements needed to enter UC as a freshman. Specifically, students must complete a pattern of 15 college-preparatory courses drawn from the areas of History/Social Science, English, Math, Lab Science, a language other than English, the Visual and Performing Arts and the college-preparatory elective.

Making our schools the most student-centered and innovative academic, athletic, cultural and career-preparatory centers of learning in our community

The Board and staff of East Side Union High School District are committed to improving our schools, helping teachers change the way they teach, and helping students change how they learn and demonstrate their learning. We are committed to giving our students the tools and skills to thrive in the global economy and to be life-long learners who can successfully adapt—and contribute—to society’s changes.

The Board of Trustees have ratified a new Strategic Plan, requiring that every student graduates prepared for college and career, empowered with the tools to thrive in a global society.

A-G Requirements: Taking steps to close the opportunity gap with access to higher-level course work

In November 2010, the East Side Union High School District Board of Trustees approved a measure to make the A-G sequence of courses for UC/CSU admission the default curriculum for all students

District Accountability & Goals:

1. Improve graduation rates
2. Decrease dropout rates
3. Improve A-G completion rates
4. Develop College & Career Readiness Indicators (5Cs) Critical Thinking, Communication, Collaboration, Creativity, and Civic Engagement
5. Decrease the Achievement Gaps as defined in 1-3 and other indicators, such as suspension and expulsion rates
Alignment with A-G

The UC system labels each subject area or requirement with a letter to easily identify the different course requirements. The chart below shows how the ESUHSD Graduation Requirements align with the A-G requirements.

Each semester of a course with a passing grade is worth 5 credits.

Students who complete the ESUHSD graduation requirements with a “C” or better in Social Science satisfy both the “A” and “G” requirements for UC.

There are variations between UC and CSU A-G Requirements. Students should consult with their counselor about the specific colleges they wish to attend.

**Board Resolution**

For the 2013-2014 school year and beyond, the default placement for all 9th and 10th graders will be a College (A-G) and/or career-preparatory curriculum. Both Individual Education Plan (IEP) and the EL Master Plan will continue to be honored for student placement and success.

**Passing Grades**

For a course to be counted towards the A-G requirements, UC and CSU require that students earn a grade of C or higher.

**Eligibility for College**

Parents and students should be aware that completion of the A-G requirements does not guarantee admission to a university. A student’s grade point average and test scores will also be considered. In order to be competitive, students should plan to take higher levels of courses that exceed the A-G requirements. Students should consult their counselor for guidance in this area.

Graduation and Promotion Waiver (EC 51225.1)
A foster youth, homeless student, or a former juvenile court school student who transfers into the District any time after completing their second year of high school shall be required to complete all graduation requirements specified by the state Legislature in Education Code section 51225.3, but shall be exempt from any additional District-adopted local graduation requirements, unless the Superintendent or designee makes a finding that the student is reasonably able to complete the requirements in time to graduate by the end of their fourth year of high school. Within 30 days of the transfer, any such student shall be notified of the availability of the exemption and whether they qualify for it. Additionally, such a student may, if he or she wishes, stay in high school for a fifth year in order to complete any District-adopted local graduation requirements.

California Assessment of Student Performance and Progress (CAASPP)
The CAASPP system is based on the state’s California Common Core State Standards (CA CCSS) for English Language Arts (ELA) and mathematics, adopted by the State Board of Education in 2010. The primary goal of this statewide testing program is to better prepare all students for college and careers in the twenty-first century. Computer-based assessments, developed through the Smarter Balanced Assessment Consortium, form the cornerstone for CAASPP. All eleventh grade students take these exams. For our severely disabled students, an alternative exam, the CAA, is available. In 2017-18, the new California Science Test (CAST), was field-tested with mostly tenth grade students and a small number of twelfth grade students. The CAST will be fully operational in 2018-19. The grade level for the CAST operational test is yet to be determined.

ESUHSD teachers and schools support students to do well on the tests and help them learn test-taking skills that will enable them to be successful throughout their school career and beyond. The 11th grade CAASPP assessments are part of the California State University (CSU) Early Assessment Program (EAP) and count as a college placement test for English and Math at the CSUs. Students who score a 4 on the Math and English 11th grade CAASPP tests are considered “college ready” and may enter directly into college level Math and English upon college admission to a CSU. Many other universities and junior colleges also accept EAP scores as evidence of college readiness. California Education Code states that parents/guardians can submit a written request to the principal of their student’s school if they do not wish to have their student take any or all parts of the state’s CAASPP tests. We encourage parents to contact their child’s teacher or principal with any concerns they may have about the tests before they request that their student be excluded from taking the test(s).

Additional State Testing

- All 9th graders take the Physical Fitness test in early spring, which assesses student physical wellness. Students not passing the Physical Fitness test in the 9th grade must take physical education (Ed. Code) in the 10th grade and retake the Physical Fitness test.
- In the spring of 2018, a new test, the English Language Proficiency Assessments for California (ELPAC) will be given to all ELL students. The spring administration of the ELPAC will replace the CELDT as the English Language Proficiency Assessment.

District Measurement of Student Growth
The District uses the following instruments to measure student growth:

English Reading Test – All students in entry level English classes take the Degrees of Reading Power (DRP) test in the fall and spring. Results allow teachers to focus their instruction on the skills needed for a student to improve his or her level of academic achievement. A comparison of the fall and spring scores determines whether the student is making progress. Results also help target students for intensive reading instruction

Benchmark Assessments – Common District benchmark assessments currently are given in ELD levels 1, 2, and 3. With the development and implementation of new standards, all other content areas are developing new assessments in order to provide information on student progress district wide, assist in course alignment, and monitor the progress of students based on district curriculum.

Intervention Progress Monitoring – The District offers several programs at each school which help to support and accelerate the learning of students who experience difficulties performing at expected grade level standards. These programs have assessments included within the curriculum which target areas of needed instruction and monitor the student growth on a regular basis.
COLLEGE TEST DATES

PSAT - Preliminary Scholastic Aptitude Test and National Merit Scholarship Qualifying Test

This test will be given October 10, 2018, free of charge to all sophomores. Juniors may also take the test for a fee, or they may apply for a fee waiver. The PSAT gives students a preview of the types of questions that will appear on the Scholastic Aptitude Test (SAT). 11th grade scores from this test are used to determine candidates for the National Merit Scholarships.

PSAT 8/9
This test will be given free of charge to all freshmen. This test is specifically for showing students whether they’re on track for college and where they need the most improvement before they take the SAT.

SAT Reasoning Test (Scholastic Aptitude Test) (https://collegereadiness.collegeboard.org/sat)
All universities in the United States accept SAT scores as part of the college admission process. The SAT tests students’ knowledge and skills in the areas that are necessary for college success: reading, writing, and mathematics. Students are encouraged to take the SAT in their junior and senior year. The SAT is given several times a year. The schedule for 2018-19 is listed below.

Please make sure to check with any university your student is interested in attending for their exact exam requirements.

SAT Subject Tests
The SAT Subject Tests are subject specific, one hour tests. Many universities use these tests to determine subject mastery and placement. Again, please make sure to check with any university your student is interested in attending for their exact exam requirements.
- Students can take up to three SAT Subject Tests on a single test date.
- Students cannot take the SAT Subject Tests and the SAT on the same test date.

ACT Assessment (http://www.act.org)
The ACT is accepted by all universities in the United States as part of the college admissions process. The ACT contains multiple-choice tests in four areas: English, mathematics, reading and science. While all universities in the United States accept ACT scores, different universities may require additional test scores, such as the ACT Writing Test. Please make sure to check with any university your student is interested in attending for their exact exam requirements.

You may request prior notification of individual pesticide applications at the school sites before they occur. To request prior notification, submit your name, address, telephone, email address, and school site of interest to facilities@esuhsd.org, or Facilities Department, 830 N. Capitol Avenue, San Jose, CA 95133.
Emergencies

All staff and students are trained in appropriate responses to fires, earthquakes and lockdown situations. Multiple drills are held each year.

- During a lockdown **DO NOT GO TO THE SCHOOL SITE**. Parents WILL NOT be allowed to pick up students. It is possible that by going to the school site the parent would place themselves and others in danger.
- Parents cannot and will not be allowed on campus during a lockdown or shelter in place (Code Red/Code Blue) situation.

The automatic phone system will call students’ homes to inform their families about the current situation, what time students will be dismissed, etc.

Parents should stay at home and monitor the situation through phone and internet contact. During a Lockdown (Code Red) or a Shelter in Place (Code Blue) your child is safely locked in a classroom, away from any danger on campus.
STUDENT/SCHOOL CODE OF CONDUCT

Section 300 of Title 5 of the California Code of Regulations requires pupils to follow school regulations, obey all directions, be diligent in study and respectful to teachers and others in authority, and refrain from the use of profane and vulgar language.

Every student has the right to be educated in a safe, respectful and welcoming environment. Every educator has the right to teach in an atmosphere free from disruption and obstacles that impede learning. The District's Discipline Foundation Policy is as follows: School-Wide Positive Behavior Intervention and Support establishes a framework based on administrative leadership and team-based implementation, where behavioral expectations are defined, taught, monitored, reinforced and corrected. The East Side Union High School District is committed to creating a climate on each campus where every student feels safe and welcome.

Guiding Principles for Everyone in the School
1. Be Respectful

6. Powered with a Plan

Remember that you matter. Your ideas, thoughts and opinions are important and have value. School pride includes:

- Maintaining honesty and integrity
- Showing empathy and compassion
- Respecting others' rights
- Appreciating differences in others
- Respecting the property of others
- Engaging in safe activities

STUDENT SEARCHES
The 4th Amendment of the United States Constitution protects individuals from unlawful searches. However, the law allows school officials to conduct searches of students under certain limited circumstances, including:
1. Searches Based on Reasonable Suspicion
   If a student has engaged in conduct that causes an administrator to have reasonable suspicion that the student has committed, or is about to commit, a crime or has violated statutory laws or school rules, the administrator may conduct a search of that student. The administrator must:
   - Be able to articulate the reason for his or her suspicion and the facts and/or circumstances surrounding a specific incident.
   - Be able to reasonably connect the student to a specific incident, crime, rule or statute violation.
   - Have relied on recent, credible information from personal knowledge and/or other eyewitnesses.
   - Ensure that a search based on reasonable suspicion is not excessively intrusive in light of the student's age and gender and the nature of the offense.
2. When conducting a student search based on reasonable suspicion, school officials must adhere to the following practices:
   - Conduct the search only if there are clear and specific reasons for suspicion and there are facts that connect the student to a specific incident of misconduct.
   - Jackets, purses, pockets, backpacks, bags, and containers in the student’s possession may be searched to the extent reasonably necessary.
   - Under no conditions may a body or strip search be conducted.
   - Only school officials of the same sex as the student being searched may conduct the search.
   - Searches based on reasonable suspicion must be conducted in a private area where the search will not be visible to other students or staff (except for a school administrator or designee witness, also of the same sex).

STUDENTS’ PERSONAL PROPERTY
Personal items of value (cell phones, iPods, cameras, electronic games, radios, CD players, and computers, etc.) should not be brought to school since loss, theft, or damage is possible. Also, such items can be distracting to the educational process and may be confiscated by school personnel. The District is not responsible for lost or stolen items (including those in lockers).

STUDENTS WITH DISABILITIES AND SPECIAL EDUCATION
Students learn in a variety of ways with most students learning effectively in a traditional school setting. Students with disabilities may be eligible to receive special education services. These services are based on assessments and determined by an Individualized Education Plan (IEP) team, which includes the student’s parent(s) as equal participants. Special education services are designed to meet the unique educational needs of students with disabilities and are provided at no cost to parents. To the maximum extent appropriate, students with disabilities are to be educated with their nondisabled peers in the general education environment at the school they would attend if they were not disabled. The general education classroom with all appropriate supplementary aids and services where the student has the greatest opportunity to be integrated with their nondisabled peers is the first educational setting for an IEP team to consider. An IEP team should only remove a student from the general educational classroom and environment when the nature or severity of a student’s disability is such that education in general classes with the use of supplemental aids and services cannot be achieved satisfactorily.

Parents of school-aged children who suspect their child may have a disability and who may need special education services should contact the administrator of their neighborhood public school. Parents of non-enrolled preschool-aged children who suspect their child may have a disability and may be eligible for special education services should contact the South East Consortium for Special Education at: (408) 223-3771.

Further information concerning special education programs and services is provided in the District’s publication, A Parent’s Guide to Special Education Services, (Including Procedural Rights and Safeguards), is available at every District school and on the District’s website at: http://www.esuhsd.org/Students--Parents/Instruction/Special-ServicesParents-Rights/index.html. Assistance related to special education issues is available from your school administrator or the South East Consortium for Special Education at: (408) 223-3771.

STUDENTS WITH DISABILITIES UNDER SECTION 504 OF THE REHABILITATION ACT OF 1973
Section 504 of the Rehabilitation Act of 1973 (Section 504) is a federal civil rights law that prohibits discrimination against individuals with disabilities in programs and activities that receive financial assistance from the U.S. Department of Education. Discrimination, harassment, intimidation, and/or bullying in any form toward individuals on the basis of their actual or perceived disability is unacceptable and will not be tolerated. The District will promptly investigate any complaints of disability-based discrimination, harassment, intimidation and/or bullying, and take reasonable actions to stop future incidents.

The District has specific responsibilities related to the provision of a Free Appropriate Public Education (FAPE) to school age individuals with disabilities under Section 504. The District is required to provide a program designed to provide equal access to the educational program and activities for students with disabilities as adequately as that provided for students without disabilities. For students who are not eligible for special education services, but meet the federal definition of persons with disabilities under Section 504, a Section 504 Plan may be developed which indicates the accommodations, supplementary aids and/or services that will be provided to assist the student in accessing the general education program. Section 504 must provide nonacademic and extracurricular services and activities in a manner that ensures that individuals with disabilities have an equal opportunity to participate. Parents or guardians must be notified in writing of any District decisions regarding the evaluation, Identification, and/or educational placement of their student and their right to participate in and/or appeal these decisions under Section 504.

For further information about filing an appeal or complaint, please follow the Uniform Complaint Procedures.
STUDENTS WITH TEMPORARY DISABILITIES
Instruction in the home or hospital is provided pursuant to state law for eligible general education students in grades K-12 whose noncontagious, temporary medical disability prevents attendance in regular day class or alternative educational program for a limited period of time. The intent is to maintain continuity of the student's instructional program during the interim period of disability. A home/hospital teacher provides instruction in subjects/courses correlated with the student’s school program to the maximum extent possible. Home/Hospital instruction is designed as a temporary, interim service. It shall not replace, over an extended period of time, the regularly required instructional program. Instruction in the home/hospital will commence: (1) when the attending physician authorizes service to begin, based upon the student’s ability to participate, and (2) upon receipt of the parent’s authorization for temporary transfer of educational duties. Instruction in the home/hospital for a temporary period of time is also provided for students with a current Individualized Education Program (IEP) or students with a Section 504 Plan – under certain circumstances.

SUSPENSION AND EXPULSION
California Education Code Section 48925 (d) defines suspension as removal of a pupil from ongoing instruction for adjustment purposes. A student may be suspended for no more than five consecutive school days. California Education Code Section 48925 (b) defines expulsion as the removal of a pupil from (1) the immediate supervision and control, or (2) the general supervision, of school personnel. In ESUHSD, the Student Services Department is charged with ensuring that students recommended for expulsion are afforded a fair and impartial hearing and all due process rights. A student may be expelled, therefore, not be allowed to attend any ESUHSD school or program during the term of expulsion. Alternatively, students may be expelled and the enforcement of the expulsion may be suspended, pursuant to Education Code Section 48917, in which case, the expelled student could be assigned to another ESUHSD school or program during the term of the expulsion. The length of an expulsion may be for up to two semesters or one calendar year, depending on the violation and/or the student’s social adjustment background.

A. Jurisdiction to issue suspensions or expulsions extends to misconduct related to school activity or attendance that occur at any time, including, but not limited to:
   • While on school grounds.
   • While going to or coming from school.
   • During the lunch period, whether on or off the campus.
   • During, or while going to, or coming from, a school-sponsored event.

A teacher may suspend a student from class for any of the acts enumerated in E.C. Section 48900. (See Grounds for Suspension/Expulsion in section C below). If a student is suspended from the classroom, the teacher must immediately report the suspension to the principal for appropriate action. The principal shall then determine whether to suspend the student from school or to allow the student to remain on campus during the term of the classroom suspension. Only the school principal or his or her administrative designee may suspend a student from school. The term of a classroom suspension shall be no longer than the balance of the day (or class period) plus the following day (or next class period for that same class). A student serving a classroom suspension must remain on campus under appropriate supervision. Subsequent to a teacher’s classroom suspension, the teacher shall, as soon as possible, ask the parent to attend a conference with the teacher, at which the school administrator, school counselor, or school psychologist may also be present.

B. Other Means of Correction (E.C. 48900.5)
Suspension, including supervised suspension (such as in-school suspension and class suspension) shall be imposed only when other means of correction have failed to bring about proper conduct and/or safety is at risk. Other means of correction used should be documented and kept in the student’s discipline file, available to access pursuant to E.C. Section 49069. Other means of correction can be found in the document titled “District’s Uniform Behavior Responses” at the end of this section.

C. Grounds for Suspension/Expulsion (E.C. 48900 et. seq.)
   (a)(1) Caused, attempted to cause, or threatened to cause physical injury to another person.
   (a)(2) Willfully used force or violence upon the person of another, except in self-defense.
   (b) Possessed, sold, or otherwise furnished any firearm, knife, explosive, or other dangerous object unless, in the case of possession of any object of this type, the pupil had obtained written permission to possess the item from a certificated school employee, which is concurred in by the principal or the designee of the principal.
   (c) Unlawfully possessed, used, sold, or otherwise furnished, or been under the influence of any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind.
   (d) Unlawfully offered, arranged, or negotiated to sell any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind, and then either sold, delivered, or otherwise furnished to any person another liquid, substance, or material and represented the liquid, substance, or material as a controlled substance, alcoholic beverage, or intoxicant.
(e) Committed or attempted to commit robbery or extortion.
(f) Caused or attempted to cause damage to school property or private property.
(g) Stolen or attempted to steal school property or private property.
(h) Possessed or used tobacco, or any products containing tobacco or nicotine products, including, but not limited to, cigarettes, cigars, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel. However, this section does not prohibit use or possession by a pupil of his or her own prescription products.
(i) Committed an obscene act or engaged in habitual profanity or vulgarity.
(j) Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell any drug paraphernalia, as defined in Section 11014.5 of the Health and Safety Code.

(l) Knowingly received stolen school property or private property.
(m) Possessed an imitation firearm.
(n) Committed or attempted to commit a sexual assault or committed a sexual battery.
(o) Harassed, threatened, or intimidated a pupil who is a complaining witness or a witness in a school disciplinary proceeding for the purpose of either preventing that pupil from being a witness or retaliating against that pupil for being a witness, or both.

E. Behavior Intervention for Students with Disabilities

Students with disabilities whose behavior impedes learning require a Behavior Support Plan (BSP) developed through the IEP process and implemented throughout the timeframe of the IEP. The education of children with disabilities can be made more effective through the use of positive behavioral interventions and supports to address the learning and behavioral needs of these children. Students with disabilities who exhibit behavioral challenges must receive timely positive supports and interventions and appropriate assessments in accordance with the federal Individuals with Disabilities Education Act (IDEA) (20 U.S.C. Sec. 1400 et seq.). When behavioral interventions, supports, and other strategies are used, they must be used in consideration of the student’s physical freedom and social interaction, be administered in a manner that respects human dignity and personal privacy, and ensure a student’s right to placement in the least restrictive educational environment. It is the responsibility of the IEP team
to determine student needs based on assessment, and to generate meaningful goals and appropriate instructional and behavioral supports and services.

F. Suspension and Expulsion of Students with Disabilities For students with disabilities, the law requires additional procedures and considerations:

**Suspension:**
Special Education: When a student who receives special education services is suspended, school staff must determine if an IEP meeting is needed to create a BSP or to review and modify an existing BSP to organize more targeted behavioral instruction and intervention to prevent the recurrence of the misconduct. Continued misconduct resulting in suspension will require an IEP team meeting to determine if additional instructional and/or behavioral supports are needed and examine the appropriateness of current placement and services. The student cannot be suspended for more than 10 days in a school year. If the student has been suspended two times, or the total days of suspension accumulate to 5, 8, or 10 school days, an IEP meeting must be convened to determine appropriate services/placement.

Section 504: A student who has a Section 504 plan is considered as a general education student and can be suspended for the same number of days as a general education student, but at 10 days of suspension, there must be an analysis in a Section 504 Manifestation Determination Meeting to review and, if appropriate, modify the current Section 504 Plan, including developing a “Section 504 Behavior Support Plan.”

**Expulsion:**
Special Education: Before a student who receives special education services can be recommended for expulsion, an IEP team must hold a pre-expulsion IEP and conduct a manifestation determination. If a student with disabilities is expelled, he or she is entitled to receive the services specified in his or her IEP during the term of expulsion. The student is also entitled to post-expulsion services (see Rehabilitation and Reinstatement from Expulsion below) during the term of expulsion. If the student is not expelled, he or she will be placed in the most appropriate setting as determined in the student’s IEP.

Section 504: An expulsion of a student being served under Section 504 is considered a disciplinary change of placement and can only be issued if the school’s Section 504 team conducts a manifestation determination and finds the conduct being disciplined is not a manifestation of the student’s disability and/or a result of the District’s failure to implement the student’s Section 504 Plan if applicable.

For more information, please refer to Procedural Rights and Safeguards.

**APPEAL OF DISCIPLINARY ACTION**
Challenges or objections to suspensions may be addressed directly with the principal. Administrative or Involuntary transfers may be addressed directly with the Associate Superintendent of Educational Services. Students who are recommended for expulsion have a right to an expulsion hearing and to address the Board of Education before the Board makes the final decision to expel. An expulsion appeal should be made to the Santa Clara County Office of Education.

**REHABILITATION AND REINSTATEMENT FROM EXPULSION**
Pursuant to E.C. Sections 48916 and 48916.1 and Assembly Bill 922, educational and support services for all expelled students is provided. The Student Services Department:

- Facilitating appropriate and timely educational placements for all expelled students
- Conducting thorough AB 922 student/parent intake assessments and developing rehabilitation plans

- Every student receives what he or she needs to thrive socially, emotionally, and academically;
- Removing the predictability of success or failure based on social, racial, cultural, or economic factors; eliminate the opportunity and achievement gaps. (The opportunity gap is the lack of opportunities for low income students to have access to highly qualified teachers, research-based academic programs and access enrichment programs. The achievement gap in the United States refers to the observed, persistent disparity in measures of educational performance among subgroups of U.S. students, especially groups defined by socioeconomic status (SES), race/ethnicity and gender); and
- Interrupting inequitable practices and biases and creating inclusive and just conditions in our schools. (Board Policy 0105)

Responsibilities
1. Student responsibilities include regular school attendance, conscientious effort in classroom work, and conformance to school rules and regulations. Most of all, students share with the administration and faculty a responsibility to develop a climate within the school that is conducive to wholesome learning and living.

2. Students have the responsibility to protect and care for all property and to assist the school staff in operating a safe school for all students. It is also the responsibility of all students to report unusual occurrences and activities, such as vandalism and theft of school and students’ property, and drug activities.

3. It is the responsibility of each student to show respect for the rights of teachers, students, administrators, and all others who are involved in the educational process.

4. Students have the responsibility to initiate their request for an appointment to confer with the teacher, counselor, administrator, or any other personnel connected with the school. It shall further be the responsibility of the students to indicate the degree of urgency. (This request can be put in writing.)

5. Students who believe a mistake in grading has been made by the teacher, have the responsibility to ask the teacher to review the records within a reasonable time.

6. Students serving on committees have the responsibility to represent the student body and to report their progress.

7. Students have the responsibility to refrain from any distribution or display of materials which are obscene, libelous or which advocate the commission of unlawful acts. Students have the responsibility to consult in advance with appropriate school personnel to determine such legal definitions. Students have the responsibility not to interfere with the school program. Students are held accountable for their actions.

8. Students have the responsibility to know and follow the rules and regulations concerning curricular and co-curricular activities.

9. Students have the responsibility to participate in and support student government.

10. Students 18 years or older have the responsibility to inform the school authorities that they are assuming their adult status.

11. Students have the responsibility to follow laws and rules regarding student records.

12. Students have the responsibility to give proper attention to personal cleanliness and neatness of dress and to follow safety and health standards. Footwear shall be worn.

13. Students have the responsibility to initiate due process on their own behalf if they feel they are being disciplined for off-campus behavior and if such behavior is not school-related.

14. Students have the responsibility to present their complaints or grievances and possible solutions, in a clear, brief manner within a reasonable time.

15. Students have the responsibility to know their rights under due process. Students have the responsibility, within a reasonable amount of time, to follow the appeals process. The levels of appeal shall be:
   15.1 Staff person whom it is believed has violated the student’s rights
   15.2 Immediate supervisor of the staff person
   15.3 Assistant Principal or Associate Principal
