### About the SARC

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. All data are reported for the 2012-13 school-year, unless otherwise indicated. For more information about SARC requirements, see the California Department of Education (CDE) SARC webpage at [www.cde.ca.gov/ta/ac/sa/](http://www.cde.ca.gov/ta/ac/sa/). For additional information about this school, please contact the school administration at 408.928.5440.

### School Description

Vision: "With great care and pride, we will teach all students to use the power of their mind to achieve academic, personal, and social success."

Mission Statement: To provide a safe and caring learning environment where students achieve the academic, personal, and social development required to continue learning, to pursue post-secondary education, to compete in a dynamic job market and to participate in a diverse, democratic society.

Pegasus is a "Small But Necessary" continuation school in the East Side Union High School District. Pegasus offers its students an alternative method of schooling in a small school environment, which emphasizes personalized instruction. Pegasus is contiguous to the campus of Independence High School and currently serves 135 students, 60-75 students in our morning program and 60-75 students in our afternoon program. The student population does change at times; the school is run on an "open entry/open exit" basis. Students completing their requirements mid-semester, students transferring back to their home school, and students referred to another alternative program allow for the enrollment of new students. The ethnic breakdown of the students varies year to year, but the vast majority of the students are Hispanic, with smaller numbers of African American, Asian, Filipino, Pacific Islander, and White.

The students who are eligible to attend Pegasus live within the East Side Union High School boundary and are juniors or first semester seniors. Pegasus does serve a small number of RSP students, but not other special education programs. At Pegasus students are re-connected to the academic life, to their families and to their communities by pertinent, personalized, persistent interventions by the staff. Working toward graduation from high school is the driving force behind Pegasus High School. Class size is small (normally 20-25 students) to facilitate a student-centered/standards-based curriculum that can be individualized, and to increase personal counseling services. Students enrolled here need a flexible educational environment due to their need for employment, raising a family, or other personal issues that require schedule adjustments. Students may earn up to 25 credits from their Pegasus core classes per semester. Students can catch up on their credits quickly from the Home Room Credit portion of the curriculum. They also can earn credits from CCOC (Central Counties Occupational Center) and to a lesser extent, adult education classes or community college classes. Active adult guidance, supervision and intervention are provided for each student daily. Instruction is personalized at Pegasus for each student. The school offers the opportunity for students to develop close relationships with staff members and continue their progress toward high school graduation. In this environment students are supported in developing self-esteem. Students learn how to make commitments and keep them. Parents are invited to be positively involved with the school, which greatly enhances student achievement.

Pegasus High School provides both a small school environment and an alternative method of schooling for eleventh and twelfth grade students. With a primary emphasis on personalized instruction, each student is afforded the opportunity to develop strong relationships with the staff members and to progress in a positive, supportive environment toward a high school diploma. Students are supported in their personal development of self-esteem and positive decision making, while learning how to make commitments and keep them.

### Opportunities for Parental Involvement

At the time of the initial enrollment (orientation), a parent is required to attend a conference with a Homeroom Teacher to discuss the expectations of all parties involved (parent, student and staff). The student's Personal Learning Plan is discussed with the student and parent to identify the specific needs that will have to be addressed in order for the student to reach his/her graduation goal. At the beginning of each semester, teachers hold a conference to again discuss the needs of the students using the PLP.

Back-to-School Night is held in October, after the end of the first grading period. Parents are given a copy of the student's grades and amount of credits earned. Parents are encouraged schedule the first parent/teacher conference at this time. The teachers frequently call home and have a close relationship with the student and family.

Parents are also encouraged to be members of the School Site Council.

\* The rate of suspensions and expulsions is calculated by dividing the total number of incidents by the total enrollment (and multiplying by 100).

### School Safety Plan

This section provides information about the school's comprehensive safety plan, including the dates on which the safety plan was last reviewed, updated, and discussed with faculty; as well as a brief description of the key elements of the plan.

Pegasus High School is located on the campus of Independence High School, therefore the entire discipline and safety team of Independence works in conjunction with Pegasus. The East Side Union High School District believes that providing a safe learning environment is critical to student success. The following actions have been taken to create safe schools:

- Creation of an Office of Safety to coordinate the district's multi-disciplinary team and supervise police on campus.
- Development of District and School Safety Plans containing emergency directories, action plans, responsibilities, duties and procedures for all emergencies.
- Enforcement of a closed campus. Students are not allowed to leave without permission.
- Development of Safe School Campus Initiative that includes members from the San Jose Police Department, Park/Recreation and Neighborhood Service, Probation, and all Associate Principals for Administration and the District's Office of Safety. This team is prepared to mobilize in the event of a critical incident or crisis. Placement of off-duty San Jose police officers on each campus during the school day for added protection.
- Posting of unacceptable behaviors and consequences in each school classrooms and in the student handbooks.
- Requirement of all staff and students to wear identification badges.
- Establishment of Healthy Start/Student Support Services on campuses to provide support services to students and their families.
- Implementation of Student Attendance Review Board (SARB) to deal with truant students.
- Implementation of earthquake, fire, and lock-down drills (Code-Red) at each school.
- Development and implementation of a model critical response training program for all schools.

### School Facility Conditions and Planned Improvements (School Year 2013-14)

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

- Description of the safety, cleanliness, and adequacy of the school facility
- Description of any planned or recently completed facility improvements
- The year and month in which the data were collected
- Description of any needed maintenance to ensure good repair

**Year and month in which data were collected:** September 2013

#### Overview

The District makes every effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the school office and at the district office.

#### Cleaning Process and Schedule

The district's Board of Trustees has adopted cleaning standards for all schools in the district. The Leadership Team works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

#### Deferred Maintenance Budget

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floors systems.

#### Age of School Buildings

The main school campus has been in existence since 1976.

#### Maintenance Projects

During the summer of 2012 the school was moved into four classrooms and one office in the "L" wing of Independence High School. These classrooms are much larger, open to outside, and are a major upgrade from the old facility.

#### Modernization

With the move, Pegasus now enjoys the use of two Smartboards and has a science lab for the first time.

### School Facility Good Repair Status (School Year 2013-14)

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair
- The Overall Rating (bottom row)

### Professional Development

This section provides information on the number of days provided for professional development and continuous professional growth in the most recent three year period.

Professional development opportunities for staff members are multifaceted and clearly and consistently linked to the state's standards, district goals, the school's core values, and occur during the school year and summer break. Our school has a coherent, comprehensive plan for professional development that is data driven and directly linked to teaching and learning. Not only do teachers and staff participate in staff development opportunities at the school, but they also take advantage of multiple professional development opportunities at the District. In addition, many teachers take professional growth classes at local colleges and universities and attend workshops offered by the Santa Clara County Office of Education. BTSAs and new teacher orientation meetings support new instructors. The school has created and successfully implemented a collaboration model for professional development. School wide and departmental meetings are held regularly so that teachers can continue to work on professional development to support school-wide efforts to align curriculum with rigorous state content standards as well as to provide instructional support for literacy and differentiation to assure the achievement of all students.

To ensure a cycle of continuous improvement, professional development is personalized to address the needs of all subject-area teachers, staff, and administrators. Not only do professional development activities for teachers reflect a best practices approach, but they also align with the California Standards for the Teaching Profession. Teachers and staff participate in professional development that is aligned with their individual fields and district plans at multiple levels. At the school level, professional development is structured to have a generalized focus (e.g., standards-based instruction), and specific facets of the professional development program (e.g., specific instructional strategies) are personalized to address the specific content area dynamics and needs. For example, in English, teachers are examining student work to ascertain effective standards-based instructional strategies, while in Physical Education, teachers are reviewing the FitnessGram data to establish effective instruction strategies for physical fitness instruction. The district also offers a multitude of professional development opportunities to broaden teachers' knowledge, enhance their classroom management skills, and augment their repertoire of best practices instructional strategies.

### Core Academic Classes Taught by Highly Qualified Teachers

The Federal Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind (NCLB), requires that core academic subjects be taught by Highly Qualified Teachers, defined as having at least a bachelor's degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. For more information, see the CDE *Improving Teacher and Principal Quality* webpage at: [www.cde.ca.gov/nclb/sr/tq/](http://www.cde.ca.gov/nclb/sr/tq/)

### Types of Services Funded (Fiscal Year 2012-13)

This section provides specific information about the types of programs and services available at the school that support and assists students. For example, this narrative may include information about supplemental educational services related to the school's federal Program Improvement (PI) status.

Pegasus High School implemented three supplemental programs for its students. The first program is an after school tutoring program for students needing assistance to successfully pass the California High School Exit Exam. Tutoring classes are provided for both English Language Arts and Math by credentialed teachers in those subject areas. Our other programs are offered as Wednesday evening and Saturday morning intervention for students needing academic support as well as those needing to recover missed instructional minutes.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- **California Standards Tests (CSTs)**, which include English-language arts (ELA) and mathematics (Math) in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science (H-SS) in grades eight, and nine through eleven.
- **California Modified Assessment (CMA)**, an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- **California Alternate Performance Assessment (CAPA)**, includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the Percent of Students not tested, see the CDE STAR Results Web site at [star.cde.ca.gov](http://star.cde.ca.gov).

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible. Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

#### California Physical Fitness Test Results

The California Physical Fitness Test (PFT) is administered to students in grades five, seven, and nine only. This table displays by grade level the Percent of Students meeting the fitness standards for the most recent testing period. For detailed information regarding this test, and comparisons of a school's test results to the district and state, see the CDE PFT webpage at [www.cde.ca.gov/ta/tg/pf/](http://www.cde.ca.gov/ta/tg/pf/).

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest webpage at [dq.cde.ca.gov/dataquest/](http://dq.cde.ca.gov/dataquest/) that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

### Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. For detailed information about the API, see the CDE API webpage at [www.cde.ca.gov/ta/ac/ap/](http://www.cde.ca.gov/ta/ac/ap/).

### Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The **statewide API rank** ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The **similar schools API rank** reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

### Federal Intervention Program (School Year 2013-14)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations webpage: [www.cde.ca.gov/ta/ac/ay/tidetermine.asp](http://www.cde.ca.gov/ta/ac/ay/tidetermine.asp).

### Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, can be found at the CDE Adequate Yearly Progress (AYP) webpage at [www.cde.ca.gov/ta/ac/ay/](http://www.cde.ca.gov/ta/ac/ay/).

AYP Criteria	School	District
Made AYP Overall	No	No
Met Participation Rate: English-Language Arts	N/A	No
Met Participation Rate: Mathematics	N/A	Yes
Met Percent Proficient: English-Language Arts	No	No
Met Percent Proficient: Mathematics	No	No
Met API Criteria	N/A	Yes
Met Graduation Rate (if applicable)	Yes	Yes

## Admission Requirements for California's Public Universities

### University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work.

For general admissions requirements, please visit the UC Admissions Information webpage at [www.universityofcalifornia.edu/admissions/](http://www.universityofcalifornia.edu/admissions/). (Outside source)

### California State University

Eligibility for admission to the California State University (CSU) is determined by three factors:

- Specific high school courses
- Grades in specified courses and test scores
- Graduation from high school

Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information see the CSU webpage at [www.calstate.edu/admission/admission.shtml](http://www.calstate.edu/admission/admission.shtml). (Outside source)

### Completion of High School Graduation Requirements

This table displays, by student group, the number of students who were a part of the school's most recent graduating class for which CDE has available data and meet all state and local graduation requirements for grade twelve completion, including having passed both the ELA and mathematics portions of the CAHSEE or received a local waiver or state exemption.

Completion of High School Graduation Requirements			
Group	Graduating Class of 2013		
	School	District	State
All Students	85	5,412	418,598

Dropout Rate (1-year)	16.60	14.70	13.10
Graduation Rate	80.53	77.14	78.73

\* The National Center for Education Statistics graduation rate as reported in AYP is provided in this table.

### California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade ten results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics to compute AYP designations required by the federal ESEA, also known as NCLB. For detailed information regarding CAHSEE results, see the CDE CAHSEE Web site at [cahsee.cde.ca.gov/](http://cahsee.cde.ca.gov/).

**Career Technical Education Programs**

This section provides information about Career Technical Education (CTE) programs including:

- Programs and classes offered that are specifically focused on career preparation and or preparation for work
- How these programs and classes are integrated with academic courses and how they support academic achievement
- How the school addresses the needs of all students in career preparation and/or preparation for work, including needs unique to defined special populations of students
- The measurable outcomes of these programs and classes, and how they are evaluated
- State the primary representative of the district’s CTE advisory committee and the industries represented on the committee

Pegasus High School does not have any CTE programs offered on campus, but the majority of our students attend CCOC.
