2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Vision: "With great care and pride, we will teach all students to use the power of their minds to achieve academic, personal, and social success."

Mission Statement: To provide a safe and caring learning environment where students achieve the academic, personal, and social development required to continue learning to pursue post-secondary education to compete in a dynamic job market and to participate in a diverse, democratic society.

Pegasus is a "Small But Necessary" continuation school in the East Side Union High School District. Pegasus offers its students an alternative education method of schooling in a small school environment, emphasizing personalized instruction. Pegasus is contiguous to the campus of Independence High School and currently serves 130 students, split roughly between our morning and afternoon programs. The student population does change at times; the school is run on an "open entry/open exit" basis. Students completing their requirements mid-semester, students transferring back to their home school, and students referred to another alternative program allow for the enrollment of new students. The ethnic breakdown of the students varies from year to year, but the vast majority are Hispanic, with smaller numbers of African American, Asian, Filipino, Pacific Islander, and White.

The students eligible to attend Pegasus live within the East Side Union High School boundary and are juniors or seniors. Pegasus does serve a small number of students with IEPs. At Pegasus, students are re-connected to academic life, their families, and communities by appropriate, personalized, persistent interventions by the staff. Working toward graduation from high school is the driving force behind Pegasus High School. The class size is small usually 20-25 students, to facilitate a student-centered/standards-based curriculum that can be individualized and to increase personal counseling services. Students here need a flexible educational environment due to their need for employment, raising a family, or other personal issues requiring schedule adjustments. Students may earn up to 25 credits per semester from their Pegasus core classer. Students can quickly catch up on their credits from the curriculum's Home Room Credit portion. They also can earn credits from SV-CTE (Silicon Valley Career Technical Education) and, to a lesser extent, adult education classes or community college classes. Active adult guidance, supervision, and intervention are provided for each student daily. Instruction is personalized at Pegasus. The school offers the opportunity for students to develop close relationships with staff members and continue their progress toward high school graduation. In this environment, students are supported in developing self-esteem. Students learn how to make commitments and keep them. Parents are invited to be positively involved with the school, which significantly enhances student achievement.

2022-23 School Overview

Pegasus High School provides a small school environment and an alternative schooling method for eleventh and twelfth-grade students. With a primary emphasis on personalized instruction, each student is allowed to develop strong relationships with the staff members and progress in a positive, supportive environment toward a high school diploma. In addition, students are supported in their personal development of self-esteem and positive decision-making while learning to make commitments and keep them.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements

Overview

The District makes every effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the school office and at the district office.

Cleaning Process and Schedule

The district's Board of Trustees has adopted cleaning standards for all schools in the district. The Leadership Team works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance Budget

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floors systems.

Age of School Buildings

The main school campus has been in existence since 1976.

Modernization

Pegasus is currently located in a recently renovated building on campus, creating a small school setting for their 5 enclosed classrooms.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	27	N/A	58	N/A	47
Mathematics (grades 3-8 and 11)	N/A	3	N/A	34	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

At the time of the initial enrollment (orientation), a parent is required to attend a conference with a Homeroom Teacher to discuss the expectations of all parties involved (parent, student and staff). The student's Personal Learning Plan is discussed with the student and parent to identify the specific needs that will have to be addressed in order for the student to reach his/her graduation goal. At the beginning of each semester, teachers hold a conference to again discuss the needs of the students using the PLP.

Back-to-School Night is held in October, after the end of the first grading period. Parents are given a copy of the student's grades and amount of credits earned. Parents are encouraged schedule the first parent/teacher conference at this time. The teachers frequently call home and have a close relationship with the student and family.

Parents are also encouraged to be members of the School Site Council.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	2.58	2.87	2.45
Expulsions	0.00	0.03	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

Pegasus High School is located on the campus of Independence High School, therefore the entire discipline and safety team of Independence works in conjunction with Pegasus. The East Side Union High School District believes that providing a safe learning environment is critical to student success. The following actions have been taken to create safe schools:

- Creation of an Office of Safety to coordinate the district's multi-disciplinary team and supervise police on campus.
- Development of District and School Safety Plans containing emergency directories, action plans, responsibilities, duties and procedures for all emergencies.
- Enforcement of a closed campus. Students are not allowed to leave without permission.
- Posting of unacceptable behaviors and consequences in each school classrooms and in the student handbooks.
- A requirement of all staff and students to wear identification badges.
- Establishment of Healthy Start/Student Support Services on campuses to provide support services to students and their families.
- Implementation of Student Attendance Review Board (SARB) to deal with truant students.
- Implementation of earthquake, fire, and lock-down drills (Run-Hide-Defend) at each school.
- Development and implementation of a model critical response training program for all schools.

2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students
English Language Arts	11	12		
Mathematics	8	8

2021-22 Types of Services Funded

Pegasus High School implemented two supplemental programs for its students. Tutoring classes are provided for both English Language Arts and Math by credentialed teachers in those subject areas. Our other programs are offered as Wednesday evening and Saturday morning intervention for students needing academic support as well as those needing to recover missed instructional minutes.

Additional work is also being performed through a ESSA grant to support recruitment and student success while at Pegasus.

Professional Development

Professional development opportunities for staff members are multifaceted and clearly and consistently linked to the state's standards, district goals, and the school's core values. They occur during the school year and summer break. Our school has a coherent, comprehensive plan for professional development that is data-driven and directly linked to teaching and learning. Not only do teachers and staff participate in staff development opportunities at the school, but they also take advantage of multiple professional development opportunities at the District. In addition, many teachers take professional growth classes at local colleges and universities and attend workshops offered by the Santa Clara County Office of Education. Induction and new teacher orientation meetings support new instructors. The school has created and successfully implemented a collaboration model for professional development. A professional development consultant was contracted to increase the technological proficiency of our teachers to use digital learning tools and software to create a more interactive classroom environment. Professional development around technology was also aligned with Common Core Standards. School-wide and departmental meetings are held regularly so that teachers can continue to work on professional development to support school-wide efforts to align curriculum with rigorous state content standards and provide instructional support for literacy and differentiation to assure the achievement of all students.

To ensure a cycle of continuous improvement, professional development is personalized to address the needs of all subject-area teachers, staff, and administrators. Not only do professional development activities for teachers reflect the best practices approach, but they also align with the California Standards for the Teaching Profession. Teachers and staff participate in professional development aligned with their fields and district plans at multiple levels. At the school level, professional development is structured with a generalized focus (e.g., standards-based instruction). Specific facets of the professional development program (e.g., specific instructional strategies) are personalized to address the particular content area dynamics and needs. For example, teachers examine student work in English to ascertain effective standards-based instructional strategies. The District also offers many professional development opportunities to broaden teachers' knowledge, enhance their classroom management skills, and augment their repertoire of best instructional strategies.

This table displays the number of school days dedicated to staff development and continuous improvement.
