## 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

Overfelt High School has become a transformational leader in school redesign in East Side Union High School District. Over the past fifteen years, W. C. Overfelt has transformed itself into a leading edge high school that is totally focused on preparing all of its students for college and careers. In 2008, Overfelt was one of two schools in the East Side Union High School District to receive a Smaller Learning Communities Grant from the U. S. Department of Education. With this grant, the school reorganized itself by implementing the following practices and strategies:

All students self-select into one of six small learning communities or thematic academies.

\*Three Career Technical Education academies are offered on the campus Electronics (Pre-Engineering), Child Development and Education, and Digital Arts and Music. There are also four academic academies: AVID, Fiat Lux, Puente, and Global Dreamers.

\* Providing resources and implementing common planning for thematic academies that are built into the school's master calendar.

\*Reorganizing facilities into common spaces designed to support the houses and academies. Facilities have been modernized with state of the art classrooms and labs, lighting, and enhanced technology systems.

\*Empowering teachers and students with leadership and decision making responsibilities.

Overfelt is the only school in the East Side Union High School District organized schoolwide into smaller learning communities

## 2022-23 School Overview

and pathways. The student-focused mindset of the school staff, the dynamic administrative leadership, and the work of a host of service providers, has made it possible for students to create strong interpersonal connections with their teachers and pathway classmates.

In spite of recent success, Overfelt continues to move forward to achieve ever greater levels of success. The school is now refining its efforts to provide the increased rigor of the Common Core State Standards into student centered classrooms. Teachers create complex learning tasks that develop the critical thinking, creative thinking, and resilience needed for success in college and careers.

The school offers twelve Advanced Placement courses and several upper level math and science courses. Enrollment levels in these courses indicate that more and more students are challenging themselves at the highest levels. Overfelt offers extensive acceleration and intervention programs. Incoming ninth grade students participate in a comprehensive summer bridge program that can accelerate them through one college preparatory class. Other summer enrichment and acceleration opportunities are provided for students throughout the four years of high school. There are also interventions to assist struggling students including after school tutoring, Saturday academic support, guidance counseling, and comprehensive student support services. Through our partnership with City Year, Overfelt is able to provide additional support to all students with a focus on freshmen. Seven Americorps volunteers join two City Year staff on campus daily to provide direct support in all 9th grade math, English, science, and social science classes. In addition they provide targeted and general tutoring after school daily and participate in student activities and events.

The William C. Overfelt campus was built in 1962, making it the third-oldest school in the district. Over the past several years, Overfelt has seen some significant changes with regard to facilities. New construction has resulted in the completion of new buildings created specifically to meet the need to organize students according to the small learning community (SLC) model. The buildings include state of the art science laboratories, classrooms that can be joined for collaborative teaching, communal meeting rooms, and state-of-the-art technology in the classrooms. Our newest building houses, music, art, theater and administration. It is the crown jewel of the campus and along with our redesigned central "quad" transforms the campus significantly.

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

## School Facility Conditions and Planned Improvements

### Overview

The District makes every effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the school office and at the district office.

### Cleaning Process and Schedule

The district's Board of Trustees has adopted cleaning standards for all schools in the district. The Leadership Team works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

### Deferred Maintenance Budget

The district participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floors systems.

### Age of School Buildings

Although the main school campus was constructed in 1962, by utilizing Measure G, Measure E, and Measure A Bond funds, the school has made significant progress on a major new construction plan that has improved the infrastructure and facilities of the school. At the start of the 2007-2008 school year, two new buildings incorporating twenty-two modern classrooms and five student collaboration rooms were opened at Overfelt High School. In December of 2008 we opened our new state of the art science building with ten fully equipped classrooms with modern lab spaces. In 2011-2012 21 new classrooms were added with 4 collaboration rooms and one multimedia computer lab. Both the E and D wings completed modernization in 2013. Our most recently opened modernizations include the new "L" wing which opened in January of 2017 at the same time as Overfelt's new swimming pool. Construction is complete for Overfelt's newest project, a signature building that incorporates visual and performing arts classrooms, a theater, administration, counseling, attendance, and a redesigned central plaza. A new concessions and bathroom building near the stadium has also opened and the school has just been repainted. Within the next year we expect to see modernization efforts in both the library and multipurpose room.

### Maintenance Projects

Overfelt is constantly undergoing maintenance as a result of the age of many of the campus buildings and grounds. We have a plan to maintain student and staff restrooms that are both clean and well supplied. Our athletic facilities and fields require ongoing maintenance and are another of our major maintenance projects.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	38	N/A	58	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	11	N/A	34	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 Career Technical Education Programs

Overfelt High School develops readiness for College and 21st Century Careers for all students through a focus on developing readiness skills. These skills include critical thinking, creative thinking, and resilience. By embedding the development of these skills in content area classes along with the rigorous literacy skills defined by the Common Core State Standards, Overfelt High School is able to help prepare all students for future success.

Overfelt also offers three specific career themed magnet programs. Each of these programs is a California Partnership Academy serving students in tenth, eleventh, and twelfth grades. Each program has a specific career focus but also develops a general readiness for college.

**Electronics Academy:** This academy has been in existence for more than twenty years. In its most current iteration it is using Project Lead the Way curriculum to develop pre-engineering skills and competencies through a variety of hands on activities using technology.

**Child Development and Education Academy:** This academy develops a deeper understanding of child development and psychology to prepare students for future careers in education and child care. Students work directly with preschool, elementary school, and after school youth programs.

**Digital Arts and Music (multimedia):** This academy develops students ability to create digital art, music, and video using the most current software and production equipment. Upon completion of three years of study, students are ready for entry level careers in audio-visual editing and production.

UC/CSU Course Measure	Percent
2021-22 Pupils Enrolled in Courses Required for UC/CSU Admission	96.76
2020-21 Graduates Who Completed All Courses Required for UC/CSU Admission	40.54

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

Parent Involvement Coordinator: Ricardo Ramirez, (408) 347-6000

W.C. Overfelt values and includes all stakeholders in all facets of the educational process. To encourage parent participation, W.C. Overfelt maintains a system of open two-way communication and employs a variety of strategies to increase stakeholder communication.

Parent Community Involvement Specialist is on campus full time to advocate for the needs of parents. This includes drop in and appointment times in the Parent Community Center, weekly meetings in both English and Spanish, parent teacher conference coordination, as well as opportunities for volunteering. Our School Linked Services Coordinator provides services and resources for families.

Weekly Parent Message from the Principal communicating important school information.

Parent Conferencing Events: twice a year Overfelt parents have the opportunity to have organized mini-conferences with teachers and school staff.

Adult Education and other classes for parents provide opportunities for parents to learn English and student support skills. In addition, the school provides courses for parents on an ongoing basis including the parent computer class, Zumba, Foothill College parent sessions, the Parent Project, and our weekly resource hour.

Counselors and Program Coordinators host frequent parent meetings on a variety of topics to increase parents' awareness of expectations, policies, and practices in order to increase student academic success.

School Site Council meets monthly and provides parents the opportunity to participate in the decision making process for the school.

## 2022-23 Opportunities for Parental Involvement

IC Messenger phone messaging system allows communication from teachers in parents' home languages.

School Loop allows parents to look up grades and assignments, review school news, and email teachers.

School Website is updated with school information.

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	3.86	2.87	2.45
Expulsions	0.00	0.03	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

## 2022-23 School Safety Plan

The Overfelt safety plan was last updated in February 2022.

W.C. Overfelt has a very detailed, comprehensive safety plan that outlines protocols, systems, and procedures in the event of any/all emergencies. This plan also contains the yearly safety goals as determined by the students, staff, and parents. The Safety Plan is developed by the WCO Safety Committee and reviewed by the District Safety Committee before it is presented to the East Side Union High School District Board of Trustees for adoption. The Safety Plan and drill procedures are reviewed during the year with all staff. Safety alerts are shared with all staff as needed throughout the school year. In addition, all required drills are calendared and completed and the results are communicated to all staff. The William C. Overfelt High School Site Safety Plan has a comprehensive, enforceable, and continuous:

Behavior policy

Protocols for safety/emergency drills

Tardy and Attendance policy

Referral process

Partnership with community agencies, City of San Jose, and other agencies and groups that offer support services

Safety team

Multi-service team

Incorporating Restorative Justice, proactive behavior supports, and alternatives to suspension

Nondiscriminatory policy on student rights and responsibilities

## 2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students

## 2021-22 Types of Services Funded

At Overfelt High School there are a number of supplemental programs to help increase student academic achievement. Teacher professional development is designed and organized by our Guiding Coalition, our MTSS Tier 1 Team. This professional development takes place during the summer, after school, and in weekly collaboration and Professional Learning Community (PLC) time. These efforts focus on increasing rigor, providing instructional support, and increasing students' engagement and motivation. All students enter one of six small learning communities where they receive extra counseling, behavior advising, and targeted curriculum in a safe and supportive environment. Additional support for 9th graders is provided by City Year Americorps volunteers; Link Crew, our team of trained peer mentors; as well as an after school mentoring program operated by Bright Futures. The AVID, Puente, Advanced Academic Program, Multimedia Production, Child Development and Education, Electronics, and Global Dreamers Academies all provide additional support structures for students. Academic intervention, acceleration, and support are offered before school, after school, on Saturdays, and during the summer. All of these programs operate with a combination of local, state, and federal categorical funds supplemented by grants and donations.

## Professional Development

Professional development opportunities for staff members are multifaceted and clearly and consistently linked to the Common Core State Standards, district goals, and the school's vision of developing of creating Equitable Communities. Our school has a coherent, comprehensive plan for professional development that is data driven and directly linked to teaching and learning. Not only do teachers and staff participate in staff development opportunities at the school, but they also take advantage of multiple professional development opportunities at the District. In addition, many teachers take professional growth classes at local colleges and universities and attend workshops offered by the Santa Clara County Office of Education. More than ten Overfelt teachers have participated in the Yale National Initiative. Teacher Induction and new teacher orientation meetings support new instructors. The school has created and successfully implemented a collaboration model for professional development. School wide and departmental meetings are held regularly so that teachers can continue to work on professional development to support school-wide efforts to align curriculum with rigorous state content standards as well as to provide instructional support for literacy and differentiation to assure the achievement of all students. Instructional coaches support more than ten teachers on site, and first year teachers receive specialized support from a dedicated coach. This years areas of focus are creating safe classrooms that activate student voice, focusing each course on priority standards and skills, and grading for equity.

To ensure a cycle of continuous improvement, professional development is personalized to address the needs of all subject-area teachers, staff, and administrators. Not only do professional development activities for teachers reflect a best practices approach, but they also align with the California Standards for the Teaching Profession. Teachers and staff participate in professional development that is aligned with their individual fields and district plans at multiple levels. At the school level, professional development is structured to have a generalized focus (e.g., Common Core and 21st Century Skill based instruction in student centered learning environments), and specific facets of the professional development program (e.g., specific instructional strategies) are personalized to address the specific content area dynamics or cross-curricular team needs. For example, in English, teachers are examining student work to ascertain effective standards-based instructional strategies, while in Physical Education, teachers are reviewing the FitnessGram data to establish effective instruction strategies for physical fitness instruction. The district also offers a multitude of professional development opportunities to broaden teachers' knowledge, enhance their classroom management skills, and augment their repertoire of best practices instructional strategies.
