How To Help Your Student

1. **Communicate/monitor** – make sure your student is maintaining their grades and has a post-high school plan.

2. **Make sure as a parent/guardian you are signed up for Remind and CANVAS** to be able to monitor grades, assignments, homework and communicate with the school.

3. **Take your student to visit potential campuses** – it is important to experience the campus.

4. **Provide your student with the necessary information** to complete financial aid.

5. **Continue to show interest and support them** and watch for signs of burnout and stress.
1. **Your child should approach the teacher first**—before a parent emails the counselor or admin (encourage your child to be a self-advocate)

2. **You can also reach out to teachers and counselors as needed** but encourage your child to contact the teacher first

3. **If your child is struggling in a class:**—does the teacher offer tutoring at break, lunch, before or after school? Does your school offer free tutoring in the library or another location?

4. **Encourage your child to start a study group with friends**

5. **Free 24/7 online tutoring with Paper** (access via ECArms)

6. **The San Jose Public Library offers free online tutoring**
05: AB 469: New law that just passed!

1. Completing the FAFSA or Dream Act Application (CADAA) is now mandatory for each senior!

2. Millions of financial aid money is not being used!

3. You can get FREE help filling out the FAFSA or CADAA! – Each high school offers at least one free workshop or you can attend one at ANY high school. Ask your child’s counselor. Workshops are in English, Spanish and Vietnamese. Financial aid experts are available at the workshops.

4. You need to fill out the FAFSA to apply/see if you’re eligible for the Middle Class Scholarship.

5. If you want the free year (or two if available) at the community colleges, you have to fill out the FAFSA or CADAA.

6. If you want to apply for any college specific scholarships or “work study” you must fill out the FAFSA.
Thank You!
